John McCarthy  
Dept. of Public Works  
City Hall  
Paso Robles, CA

Mr. McCarthy

On 2-3-99 The Kenneth Booker Family had a house fire in which their mobile home and all of their belongings were completely destroyed. I am a part of a volunteer community effort to help the Booker Family clean up destroyed belongings and what remains of their mobile home. Ms. Dannett Fieguth from the landfill said, " They would be willing to absorb the expense of two-40 yard dump boxes." However, she explained that the City of Paso Robles would have to agree with this because they share landfill expenses with her company. I hope the City Council can help us with this and help the Booker Family to start to rebuild their lives.

Thank you

James Clegg
