| From: | Mike Compton, Director of Administrative Services |
| Subject: | Transit Fares |
| DATE: | April 20, 1999 |

Need:
For the City Council to consider modifications to transit fares for both dial-a-ride and fixed route services..

Facts:

1. The current fare for dial-a-ride (DAR) is $\$ 1.50$ per one way for trip for persons taller than forty inches ( $40^{\circ}$ ) and 5050 for children less than forty inches ( $40^{\circ \prime}$ ) tall who can access bus without assistance (non-infants). The City still provides a fare discount on the purchase of ticket books. A book of ten tickets can be purchased for $\$ 12.50$.
2. The current fare for fixed route service(FRS) is $\$ 0.75$ per one way trip. No discount is provided for the purchase of ticket books and all passengers except infants pay full fare.
3. The last fare increase was approved by the Council on July 1, 1997 and the current fares went into effect August 1, 1997.
4. The Council recently provided direction to staff to undertake the following actions:
a. Increase FRS fares to $\$ 2.00$ per one way trip.
b. Expand FRS to Saturday.
c. Using current DAR service as a "core" service level, issue Request for Proposals (RFP) to provide extended demand response transit service from 6:00 p.m. to 2:00 a.m., Monday through Saturday.
5. The purpose of the rate increase was to reduce the current fare subsidy and at least partially fund the expanded Saturday service for PR CATS and the demand response (DAR) hours from 6:00 p.m. to 2:00 a.m., Monday through Saturday.

## Analysis and

Conclusions:
The FRS increase was planned to coincide with implementation of Saturday service. While working out the implementation details, it was both staff's and the transit operator's conclusion that the significant increase in FRS fares, $167 \%$, without an increase in DAR fares may prove problematic. The increase in FRS fares would likely result in passengers "fleeing" FRS for the less costly DAR service. However, there is little, if any, capacity on DAR to accommodate increased ridership unless additional capacity is provided.

In order to minimize the impact of a rate increase for FRS, staff would recommend that the Council consider raising DAR fares concurrently with FRS fares. Furthermore, the

Council may wish to consider increasing the FRS fare incrementally over time. For example: concurrently with implementation of Saturday FRS, increase the fare to $\$ 1.00$; four months later increase the fare to $\$ 1.25$; and four months later increase the fare another \$0.25. The Council may consider stopping the rate increase when the total fare reaches $\$ 1.50$ or continue raising the fare $\$ 0.25$ every four months until the total fare reaches the previously designated rate of $\$ \mathbf{\$ 2 0 0}$.

With regard to DAR fares, staff would recommend elimination of the discount for purchasing a book of ten tickets and raise the fare to $\$ 3.00$ per one way ride. This fare would still be considerably less than a taxi cab fare and is identical to the fare currently being charged for by SCAT for its senior and handicapped subsidized taxi cab service.

Any fare increase will likely result in a temporary decline in ridership but generally returns to "pre-increase" levels with time. Given the size of the proposed fare increases, it would not be surprising if the City lost some ridership permanently or that it might take longer to return to "pre-increase levels. Staff will need to closely monitor the impact and report to the Council on a regular basis.

The Council consideration, two different resolutions are attached. One, takes the DAR fare to $\$ 3.00$ and the CATS fare to $\$ 1.50$ incrementally; and a second resolution taking the fare to $\$ 2.00$ incrementally.

Fiscal
Impact:
The cost to provide regular FRS on Saturday is estimated at $\$ 36,000$ annually. The estimated cost through the balance of the current fiscal year is $\$ 6,500$. This assumes that Saturday service will start May 1st, providing nine days of service. This should provide ample opportunity to determine the success of providing Saturday FRS service.

The cost estimates provided above for Saturday service assumes that there will be no increase in the current hourly rate being paid to the contractor. Staff is confident that this will be the case, but the contractor may not agree.

Assuming that Saturday ridership will offset the decline in ridership as the result of the fare increase, at current ridership levels, the incremental fare increase as described above would generate an additional $\$ 2,500$ in fare revenues through June 30,1999 . On an annual basis, a fare increase, as outlined above, would generate $\$ 37,000$ if the total fare increase was capped at $\$ 1.50$ or $\$ 40,000$ if capped at $\$ 2.00$.

With regard to DAR, during the first eight months of the fiscal year, the City experienced a fare box ratio of nearly $19 \%$. The average gross cost per paid fare was $\$ 10.18$ and the average gross revenue per paid fare was $\$ 1.90$. The reason the revenue per paid fare exceeds the maximum fare of $\$ 1.50$ is due to sales of ticket books.

Assuming a $20 \%$ decline in DAR ridership as the result of a fare increase to $\$ 3.00$, it is estimated that the City would realize a revenue increase of $\$ 12,000$ annually which would push the fare box ratio to $30 \%$.

## Options:

a. That the City Council consider approval of the attached resolution to increase transit fares; or
b. Amend, modify or reject any of the options above.

## RESOLUTION NO.

$\qquad$

## A RESOLUTION OF THE CITY OF EL PASO DE ROBLES APPROVING AN INCREASE IN TRANSIT FARES EFFECTIVE MAY 1, 1999

WHEREAS, the Council is desirous of expanding fixed route transit services and demand response transit services; and

WHEREAS, the Council is also desirous of reducing the tax subsidy by increasing the fare box ratios; and WHEREAS, the only effective means of accomplishing both goals is to increase revenues.

THEREFORE BE IT HEREBY RESOLVED by the City Council of the City of El Paso de Robles that the following transit fares are hereby approved:

| Dial-a-Ride | May 1, 1999 | $\$ 3.00$ | Adults |
| :--- | :--- | :--- | :--- |
| Dial-a-Ride | May 1, 1999 | $\$ 1.00$ | Children $<40^{\circ}$ tall |
| Dial-a-Ride | May 1, 1999 | $\$ 8.00$ | Adult - after 8:00 p.m. |
| Fixed Route | May 1, 1999 | $\$ 1.00$ | Adults |
| Fixed Route | May 1, 1999 | $\$ 0.50$ | Children $<40^{\prime \prime}$ tall |
| Fixed Route | September 1, 1999 | $\$ 1.25$ | Adults |
| Fixed Route | September 1, 1999 | $\$ 0.50$ | Children $<40^{\prime \prime}$ tall |
| Fixed Route | January 1, 2000 | $\$ 1.50$ | Adults |
| Fixed Route | January 1, 2000 | $\$ 0.75$ | Children $<40^{\circ}$ tall |
| Fixed Route | May 1, 2000 | $\$ 1.75$ | Adults |
| Fixed Route | May 1, 2000 | $\$ 0.75$ | Children $<40^{\circ}$ tall |
| Fixed Route | September 1,2000 | $\$ 2.00$ | Adults |
| Fixed Route | September 1,2000 | $\$ 1.00$ | Children $<40^{\prime \prime}$ tall |

- infants ride free on both systems

PASSED AND ADOPTED by the City Council of the City of El Paso de Robles this 20th day of April, 1999 by the following vote:
