C. DISCUSSION ITEMS

1. Airport History

Chuck Miller presented a brief overview on some of the early history of the Airport and the promotional efforts used to encourage some of the first development in the industrial park. The Committee discussed possible strategies to promote further development in the Airport area. No further action was taken.

2. Development Review - Nunno

This item was tabled at the request of the applicant. It will be presented at a future meeting.

3. Buena Vista Drive - Name Change

The sub-committee assigned the task of suggesting a new name for that portion of Buena Vista Drive which extends onto the Airport presented their report. With that report came a motion to table any action at present. That motion failed by a vote of 3-4. After further discussion and the concern regarding confusion over the address change, the matter was referred back to the sub-committee for further review and recommendation.

Staff reported to the Committee on the results of the Request for Proposals for terminal design. The City received three (3) proposals from qualified architectural firms which must now be reviewed. A panel consisting of Miller, Corippo, and Caskey was appointed to review and make recommendation to the Council as to the most acceptable proposal.
