TO: JAMES L. APP, CITY MANAGER
FROM: BOB LATA, COMMUNITY DEVELOPMENT DIRECTOR *QAA*
SUBJECT: PERMISSION TO FILE DEVELOPMENT APPLICATIONS
IN ADVANCE OF COMPLETION OF THE AIRPORT SPECIFIC PLAN
(BLACKBURN MFG.)

DATE: AUGUST 3, 1999

Needs: For the City Council to consider granting permission for Blackburn Mfg. to file development related applications regarding properties that lie within the Airport Specific Plan designation area.

- Facts:
1. The City's General Plan calls for preparation of a specific plan prior to development of certain properties (Airport Specific Plan Area).
 2. The purpose of waiting for completion of the Airport Specific Plan is to ensure that the development of properties that could be impacted by the Airport (or, conversely, whose development could adversely impact present or future operations of the Airport) are developed in such a manner so as to minimize impacts on or by the Paso Robles Municipal Airport.
 3. It is the policy of the City of Paso Robles to withhold discretionary development approvals until completion of the Airport Specific Plan, except that the City Council may consider requests and permit development applications to be filed in advance of the Airport Specific Plan if findings of anticipated consistency can be made.
 4. Blackburn Mfg. has a development proposal that is needing permission to file for a Planned Development / related actions. The property is an approximate 1.3 acre parcel that lies on Vanderlip Court, east of Golden Hill Road, south of Mesa Road within the Commercial, Planned Development (C3,PD) Zone.

Analysis and Conclusion: The City's General Plan and Economic Development Strategy seek to provide a balanced community. Industrial development is essential to that balance.

Subject to appropriate conditions of approval, development of the subject property would seem to be consistent with the Zoning and General Plan, and would not be inconsistent with discussions regarding appropriate land uses for the Airport Specific Plan Area.

 - b. Amend, modify, or reject Option a.
