

TO: JAMES L. APP, CITY MANAGER
FROM: JOHN R. McCARTHY, DIRECTOR OF PUBLIC WORKS
SUBJECT: ACCEPTANCE OF PUBLIC IMPROVEMENTS FOR TRACT 2214 (ORRADRE)
DATE: AUGUST 17, 1999

Needs: That the City Council authorize acceptance of public improvements constructed as required for Tract 2214-1 (Orradre).

- Facts:**
1. The Subdivider entered into a Subdivision Improvement Agreement with the City and posted securities to guarantee installation of public improvements in accordance with the Subdivision Map Act and the City of El Paso de Robles Municipal Code.
 2. The Final map was approved by the City Council for recordation on October 20, 1998 by Resolution No. 98-180.
 3. The amount which shall be retained by the City during a one-year guarantee and warranty period is 10% of the Subdivider's Performance securities, which is fifty-one thousand, eight hundred twenty-seven dollars (\$51,827.00).
 4. The project was annexed into the Paso Robles Landscape & Lighting Maintenance District by Resolution No. 98-181.
 5. The Subdivider constructed, installed and completed the following streets or roads in accordance with the Subdivision Improvement Agreement and in compliance with the improvement plans and all applicable City standards:

<u>STREET NAME</u>	<u>FROM</u>	<u>TO</u>	<u>MILES</u>
Stoney Creek Drive	Creston Road	Beechwood Drive	0.22

Analysis and Conclusion:

The public improvements which the developer was required to install have been completed. Further, the City will still retain a Maintenance Bond for a period of one year as warranty for the improvements installed.

Policy Reference:

Title 22 of the Municipal Code Section and Subdivision Map Act

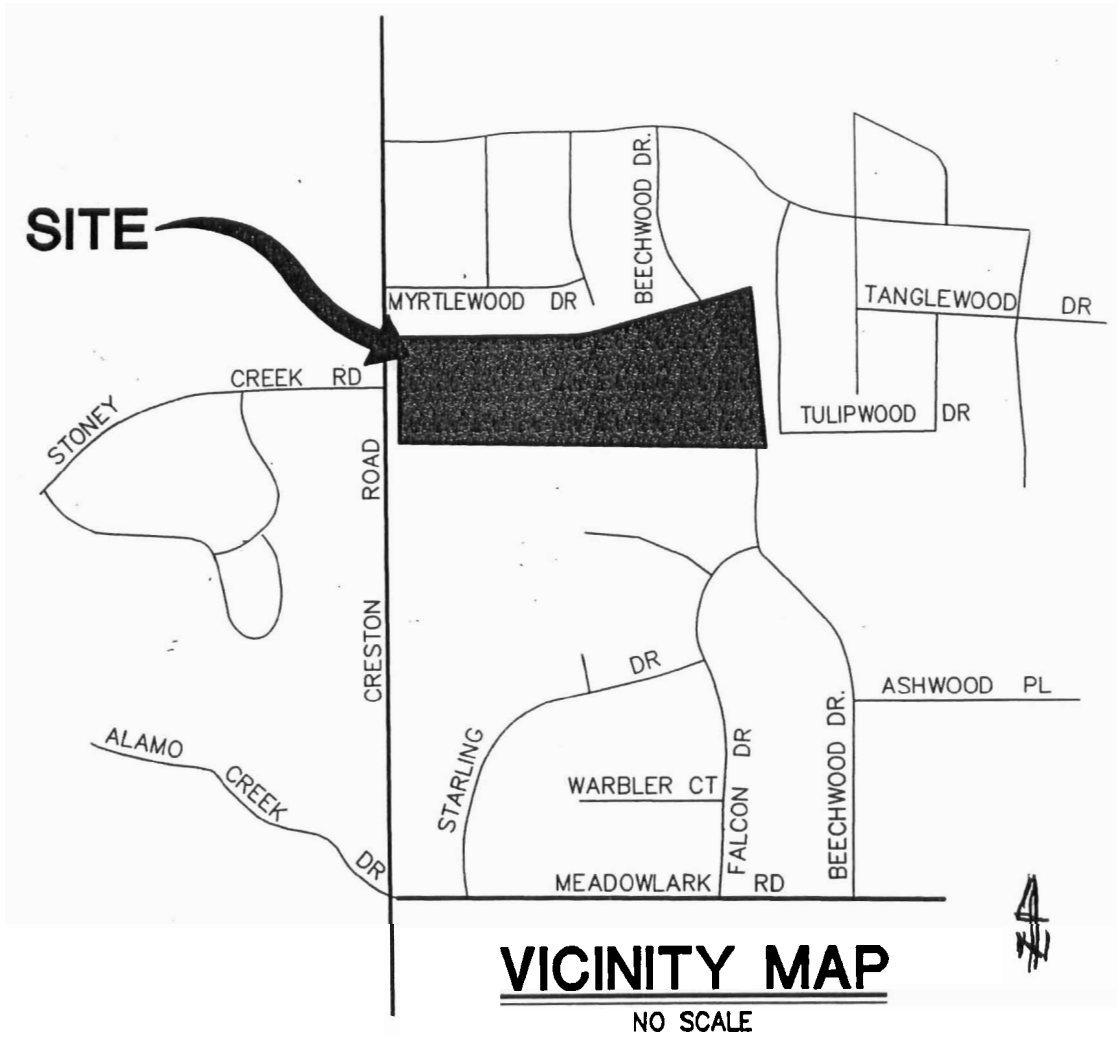

Fiscal Impact:

City street maintenance costs will increase due to use of the City Street Sweeper during and after the maintenance period, and as a result of the acceptance of these additional streets one year after the release of the maintenance securities. Maintenance costs will also increase with regard to the addition of sewer and water main lines. These costs will vary from year to year in accordance with the amount of maintenance required. Typically, streets receive a slurry seal every five years and Asphalt overlay every twenty years. Slurry costs are about \$45,000 per mile and asphalt concrete overlay is about \$200,000 per mile.

- Options:**
- A. That the City Council approve the Resolution authorizing acceptance of certain streets into the City maintained mileage system and approve the Resolution authorizing the Notice of Completion to be filed, partial release of Performance securities and release of the Payment (Labor and Materials) securities for Tract 2214-1 (Orradre).
 - B. That the City Council amend, modify or reject the above option.
