Re: PG&E's San Luis Obispo County 70kV Power Line Reinforcement Project

Dear Mayor Picanco and Council Members:

I am writing to request time on your October 19 City Council agenda for an informational item for PG&E representatives to provide a report on our summary of findings from our 70kV power line route study.

During the July 21, 1999, City Council workshop on PG&E's San Luis Obispo 70kV Power Line Reinforcement Project, the Council requested PG&E present a report on our line study once completed. Fifteen minutes will be sufficient to present our summary findings of the route study and respond to any questions the Council may have.

Sincerely,

Patrick W. Mullen
Governmental Affairs Representative

cc: James L. App, City Manager
George Finigan, PG&E Planning Engineer
John Hagen, PG&E Transmission Project Manager
Missie Hobson, PG&E Public Affairs Manager
Bob Lata, Community Development Director

**NOTICE OF PUBLIC PRESENTATION
STATUS REPORT ON
PG&E POWER LINE AND ELECTRICAL SUPPLY UP-GRADE**

NOTICE IS HEREBY GIVEN that the City Council of the City of El Paso de Robles is scheduled to hear a presentation from PG&E regarding the status of PG&E's proposed 70 kV electric line up-grade. The presentation is being scheduled for the regular City Council meeting of October 19, 1999 in the Conference Facility of the Library / City Hall building at 1000 Spring Street, at 7:30 PM.

The presentation is being scheduled to inform the City Council and interested members of the public. No action is being requested of the City Council.

Please contact Bob Lata or Lonnie Dolan at (805) 237-3970 if you have any questions regarding this notice or related information needs.

Bob Lata, Community Development Director
