 SUBJECT: Preliminary General Fund Results - FY 1999
 DATE: November 2, 1999

NEEDS: For the City Council to consider preliminary unaudited General Fund financial results for the fiscal year ended June 30, 1999.

- FACTS:**
1. The annual audit for the fiscal year ended June 30, 1999 (FY 99) is not yet complete. Thus, the results reported herein are preliminary and subject to change.
 2. General Fund revenues and transfers 'in' will likely exceed expenditures and transfers 'out' by \$726,000.
 3. The adopted budget for fiscal year 2000 included a list of one time priority budget allocations which would be made from available year end FY 99 resources.
 4. Budget Exhibit "E", the one time priority budget allocation list, totaled \$944,000 (copy attached herewith as Exhibit "A").
 5. Since July 1st, the Council has made numerous allocations of General Fund resources which were not included in the adopted budget nor on the list of one time priority budget allocations.
 6. The Ad Hoc Fiscal Policy Committee has met to consider this matter. Their recommendations relative to the allocation of year end results are attached herewith as Exhibit "B".

ANALYSIS & CONCLUSION:

As noted above, year end results in the General Fund were better than expected. In March, it was estimated that General Fund revenues would total \$11,101,300 and transfers 'in' would total an additional \$713,000. They were actually \$11,792,900 and \$821,600, respectively.

Expenditures were estimated in the *adopted budget* at \$10,192,300 and transfers 'out' were estimated at \$1,101,400. They were actually \$10,609,100 and \$1,279,200, respectively.

Actual results as compared to budget and mid-year projections is summarized as follows:

	<u>ACTUAL Results</u>	<u>Mid-Year Estimate</u>	<u>Revised Budget</u>	<u>Original Budget</u>

FISCAL IMPACT:

Given the estimated results for FY 99, the increase to reserves is insufficient to fund all of the items on the list of one time priority budget allocations. As noted above, the expected increase to reserves is \$726,200 while the list of one time priority budget allocations totals \$944,000. Since the current operating budget contains an allocation of \$300,000 to the Economic Incentive Fund, the ad hoc fiscal policy committee has recommended that the Council defer the additional allocation of \$200,000 to the Economic Incentive Fund. However, even should the Council choose to defer this additional contribution, there are still insufficient resources to fund all of the items on the list of one time priority budget allocations.

Due consideration must also be given to applying a portion of fiscal year 1999 results to fiscal year 2000 operating budget needs. Since July 1st, the Council has authorized General Fund budget appropriations and other spending authorizations which exceed estimated fiscal year 2000 increase in reserves, \$85,400. This increase in reserves was earmarked for eliminating the projected operating deficit in fiscal year 2001. Spending allocations authorized by the Council since the current budget was adopted include:

1.	Salinas River Clearing Project	\$ 40,000
2.	Y2K Awareness	4,800
3.	Property Appraisals	12,000
4.	Police Salary & Benefits	103,000
5.	Sales Tax Adjustment	59,000
6.	Retro Pay for All Work Groups	Calculation Underway

The ad hoc fiscal policy committee, in addition to the deferral of the additional contribution to the Economic Incentive Fund, recommends Council consideration be given to increasing the contribution for alleyway maintenance from \$30,000 to \$55,000; decreasing the contribution for the fire apparatus vehicle from \$450,000 to \$300,000 with the \$300,000 being applied towards a lease purchase contract; including the \$40,000 for clearing the Salinas River to the list; and lastly, that \$65,000 for on-site improvements for the Berg project be added to the allocation. These recommendations by the ad hoc fiscal policy committee, if embraced by the Council, would total \$724,000.

These recommendations do not take into account all of the spending authorizations approved by the Council to date. It is the ad hoc fiscal policy committee's hope that the economic growth of Paso Robles will result in sufficient revenue resources to offset the projected General Fund deficit. It is also their expectation that sufficient expenditure savings, within the Police Department, will occur to offset the increased cost associated with the recent salary adjustments approved by the Council. Historically, the Police Department has experienced salary savings ranging from \$100,000 to \$200,000 in spite of efforts to remain fully staffed.

It should be noted that the allocation of either the FY 99 increase in reserves and/or accumulated General Fund reserves may result in an operating deficit being reported for fiscal year 2000 results.

OPTIONS:

- a. That the City Council adopt the attached resolution allocating General Fund resources towards one time priority budget allocations; or
- b. Amend, modify, or reject the above option.
