

**TO:** JAMES L. APP, CITY MANAGER  
**FROM:** DITAS ESPERANZA, CITY ENGINEER *DE*  
**SUBJECT:** ACCEPTANCE OF PUBLIC IMPROVEMENTS FOR TRACT 1771-1 (COKER ELLSWORTH)  
**DATE:** JANUARY 4, 2000

**Needs:** That the City Council authorize the acceptance of public improvements constructed as required for Tract 1771-1 (Coker Ellsworth).

- Facts:**
1. The Subdivider entered into a Subdivision Improvement Agreement with the City and posted securities to guarantee installation of public improvements in accordance with the Subdivision Map Act and the City of El Paso de Robles Municipal Code.
  2. The Final map was approved by the City Council for recordation on March 16, 1993 by Resolution No. 93-61.
  3. The amount which shall be retained by the City during a one-year guarantee and warranty period is 10% of the Subdividers Performance securities, which is two hundred sixty-seven thousand eight hundred twenty two (\$267,822). This retention will be retained for a period of one (1) year after the acceptance of all improvements.
  4. The project was annexed into the Paso Robles Landscape & Lighting Maintenance District by **Resolution 93-63**.
  5. The Subdivider constructed, installed and completed the following streets or roads in accordance with the Subdivision Improvement Agreement and in compliance with the improvement plans and all applicable City standards:

<u>STREET NAME</u>	<u>FROM</u>	<u>TO</u>	<u>MILES</u>
Charolais Road	Westerly Tract Boundary	Easterly Tract Boundary	0.62
Holstein	Charolais	Brahma	0.07
Brahma	Holstein	Northerly Tract Boundary	0.22
Angus	Brahma	cul-de-sac	0.13
Guernsey	Angus	cul-de-sac	0.02
Oxen	Brahma	clu-de-sac	0.13

**Analysis and**

**Conclusion:** The public improvements which the developer was required to install have been completed. Further, the City will still retain a Maintenance Bond for a period of one year as warranty for the improvements installed.

**Policy**

**Reference:** Title 22 of the Municipal Code Section and Subdivision Map Act

**Fiscal Impact:**

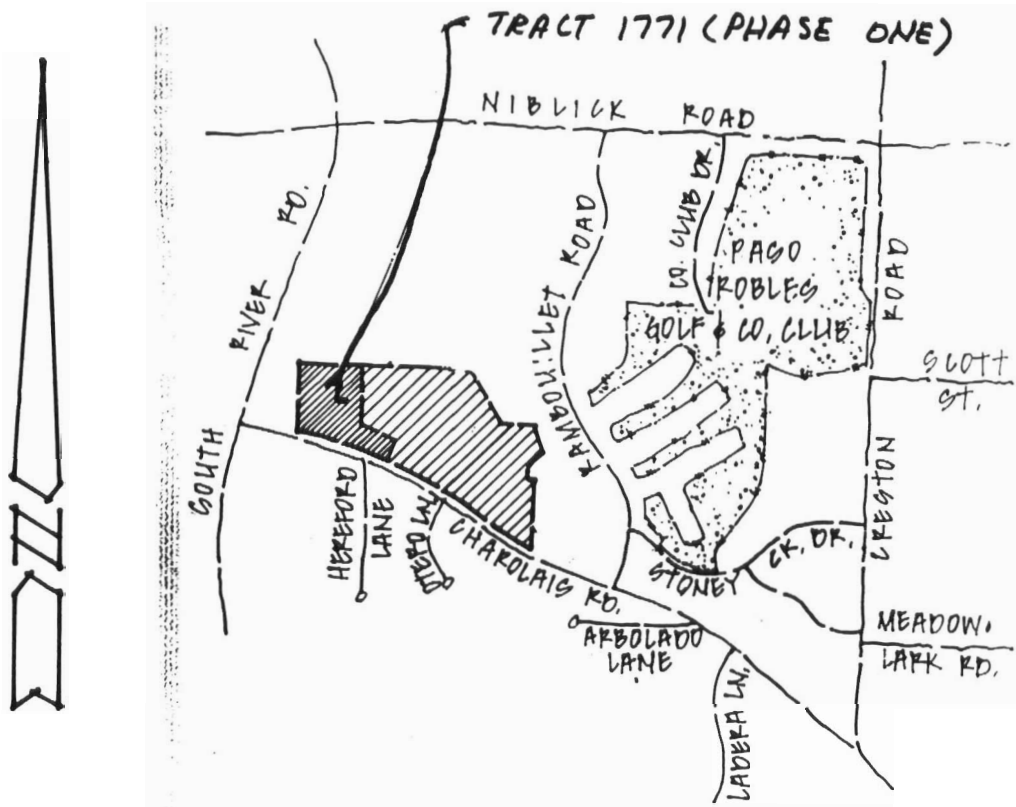

City street maintenance costs will increase due to use of the City Street Sweeper during and after the maintenance period, and as a result of acceptance of these additional streets one year after the release

of the maintenance securities. Maintenance costs will also increase with regard to the addition of sewer and water main lines. These costs will vary from year to year in accordance with the amount of maintenance required. Typically, streets receive a slurry seal every five years and Asphalt overlay every twenty years. Slurry seal costs are about \$45,000 per mile and asphalt concrete overlay is about \$200,000 per mile.

- Options:**
- A. That the City Council approve the attached **Resolution** authorizing acceptance of certain streets into the City maintained mileage system; and approve the attached **Resolution** authorizing the Notice of Completion to be filed, partial release of Performance securities and release of the Payment (Labor and Materials) securities for **Tract 1771-1 (Coker Ellsworth)**.
  - B. That the City Council amend, modify, or reject the above option.
