

TO: JAMES L. APP, CITY MANAGER
FROM: BOB LATA, COMMUNITY DEVELOPMENT DIRECTOR *Bob*
SUBJECT: FIELD TRIP REGARDING HILLSIDE DEVELOPMENT OPTIONS
DATE: MARCH 7, 2000

Needs: For the City Council to consider setting a date for a field trip with the Planning Commission to discuss Hillside Grading / Development options.

- Facts:
1. At the July 6 and August 3, 1999 Council meetings, the City Council discussed options regarding hillside grading.
 2. The Council directed staff to provide alternative approaches to grading in hillside areas. There was also interest expressed in conducting a field trip to look at examples of hillside development. A copy of the August 3, 1999 minutes are attached.
 3. In follow-up to Council direction, on February 24, 2000, a meeting was held with local civil engineers and developer representatives. The purpose of the meeting was to help identify issues and options for Council consideration.
 4. It is proposed that the collected information will be presented to the Planning Commission for their review and comment on March 28, 2000.
 5. In order to view various examples of hillside grading, a joint City Council – Planning Commission field trip is suggested during April. Friday, April 28, 2000 is a possible field trip date that would allow local engineers / developer representatives to join the Planning Commission and City Council.

Analysis
and

Conclusion: A field trip to view examples of grading treatments was discussed by the City Council.

Local civil engineers and developer representatives have indicated a willingness to join the Planning Commission, City Council and staff on such a field trip. The intent would be to arrange for a dial-a-ride / transit vehicle.

Friday, April 28, 2000 has been suggested as a possible date for a field trip. In order to make arrangements for the field trip, it would be helpful to confirm a date at this time.
