CITY OF PASO ROBLES

To: Paso Robles City Council
From: Paso Robles Youth Commission
Subject: **Public Transportation**
Date: February 11, 2000

Members of the Youth Commission feel that the cost of public transportation in Paso Robles is above the means of most if it's riders. For a teen that has a job or important matters to take care of across town, the price of public transportation is too high.

The routes the PRCAT system follows are well laid out and facilitate the needs of a majority of the citizens. The buses are comfortable and pleasant to ride. However, we feel that the cost is excessive.

The Youth Commission would like to propose a youth rate. We think that a .75 cent fare is acceptable. The Transportation Committee also thinks that PRCATS should offer a "punch pass" that would give frequent riders even more of a discount. We think 25 rides for \$15 is affordable with a \$3.75 savings. Thank you for your consideration.
