Every person whose premises are served by a connection with the system of sewerage of the city, whereby the sewage or industrial wastes, or either or both, are disposed of by the city through the sewage treatment plant, or otherwise, shall pay a sewer service charge established by ordinance of the city council. Other than as expressly provided herein, the rates for such sewer service fee shall only be established or amended by a two-thirds vote of the city council in favor of such establishment or amendment of sewer service rates.

Effective January 1, 2004, the base sewer service charge for all customers shall be increased to \$43.72 per billing period. Residential customers shall pay only the base sewer service charge. Nonresidential customers shall pay the base sewer service charge for 1,000 cubic feet of metered water and shall pay an additional charge of \$1.07 for each additional 100 cubic feet of metered water used by said nonresidential customer. Metered landscape water is not included in the determination of sewer service charges.

[Effective July 1, 2004, the sewer service charges established in this section shall be modified annually each July 1 by the increase in the Consumer Price Index for the San Francisco-Oakland-San Jose Region as reported by the Bureau of Labor Statistics for the year ending April of each year.]

The sewer service charge shall be further modified on July 1, 2004 and January 1, 2005 by an additional 1%.

The sewer service charges shall further be reviewed no less than bi-annually in conjunction with the update of the City's budget to ensure that the sewer service fees then in existence do not exceed the costs of providing sewer service within the City.”
