

TO: James L. App, City Manager
FROM: Joseph M. Deakin, Public Works Director
SUBJECT: Solid Waste Program – Regional Recycling Facility Agreement
DATE: November 18, 2003

NEEDS: For the City Council to consider executing an agreement with North San Luis Obispo County Recycling, Inc. for recyclables processing and associated solid waste/recycling services.

- FACTS:**
1. On April 2, 2002, the City Council resolved to join the San Luis Obispo Integrated Waste Management Authority (IWMA), taking a major step toward solid waste/recycling program success in the City. At that time, the City Council also approved solid waste/recycling program changes with the City's solid waste collection franchisee, Paso Robles Waste Disposal (PRWD). These actions followed the recommendations of the Solid Waste Diversion Study, March 21, 2002.
 2. The City and PRWD partner to collect commercial and residential recyclable materials to meet state mandates, and to properly serve the community. The current practice requires PRWD to ship collected recyclables (from the residential curbside collection) to the processing facility at the Cold Canyon Landfill, near San Luis Obispo. The Solid Waste Diversion Study reiterated the finding from the 1994 Source Reduction and Recycling Element (SRRE) that a north county facility would enhance City recycling operations by reducing truck mileage.
 3. A north county recycling facility is available to serve the City, now. North San Luis Obispo County Recycling Inc. has completed constructing a recyclables sorting and processing facility in Templeton (Ramada Drive). The facility, at the time of this report, is in final equipment testing before commencing operations. The owner expects the facility to be ready for processing by mid-November.
 4. This item was continued to the November 4, 2003 meeting then again from the November 18, 2003 meeting.

**ANALYSIS &
CONCLUSION:**

California State law requires all jurisdictions reach 50% diversion (recycling, reuse, etc.) by the year 2000, or face fines of up to \$10,000 per day. The City continues to look at program improvements in solid waste and recycling to better assure long-term compliance with this mandate.

The City is fortunate to have available a new facility for recyclables processing in the north county. North San Luis Obispo County Recycling Inc. has approached the City requesting an agreement for the City to use the facility, and for the facility to use the City's landfill for disposing residuals from the recyclables sorting. The City staff met with representatives of North San Luis Obispo County Recycling Inc., IWMA and PRWD to discuss the terms of an agreement, and to assure all parties reached a consensus, respectful of the partnerships. The attached agreement is the outcome of the meetings by the parties – City staff, IWMA and PRWD jointly concur with the draft agreement.

The agreement provides that North San Luis Obispo County Recycling Inc. will accept commingled recyclable truckloads from the City's curbside recycling collection program. The loads will be deposited, and recyclable materials will be sorted to provide a marketable commodity. Any waste residuals mixed in will be sorted out, and will ultimately be taken to the City's landfill for disposal. Specific terms include:

- Agreement is for 10 years, base, with 5 additional years optional
- The price paid for commingled disposal is \$9 per ton, paid by PRWD, \$2 per ton is returned to the City as a franchise fee

- The City receives all solid waste residuals at the City landfill, and North San Luis Obispo County Recycling Inc. pays posted landfill rates for disposal

The City Council may choose to enter this agreement with North San Luis Obispo County Recycling Inc. to supplement the current solid waste/recycling program. Currently, the City is served by the Cold Canyon Landfill recyclables processing facility, and the City has the option to allow PRWD to continue to use this source. Furthermore, the City could remain neutral, and allow PRWD to enter an agreement on their own with North San Luis Obispo County Recycling Inc. The option for the City to enter the agreement with North San Luis Obispo County Recycling Inc. provides for the City to stipulate residuals being returned to the City's landfill, and provides franchise fee revenue.

POLICY

REFERENCE: Council Resolution 94-115 (adopting the 1994 SRRE)

FISCAL

IMPACT: Paso Robles Waste Disposal (PRWD) indicates there will be no additional cost to use the North San Luis Obispo County Recycling Inc. facility versus the costs now experienced. Therefore, this agreement should not impact current waste/recycling service rates

Franchise fees, at \$2 per ton of commingled recyclables, equates to approximately \$3500 per year of City revenue.

- OPTIONS:**
- A. Authorize the Mayor to execute the Agreement for Services with North San Luis Obispo County Recycling Inc. to provide commingled recyclables processing services to the City.
 - B. Amend, modify or reject the above option.

6.09 BINDING EFFECT

This Agreement shall be binding on and shall inure to the benefit of the heirs, executors, administrators, successors and assigns of the parties hereto, but nothing in this Section 6.09 shall be construed as a consent by CITY to any assignment of this agreement or any interest in this Agreement.
