

TO: James L. App, City Manager
FROM: Meg Williamson, Interim Public Works Director
SUBJECT: Diagonal Parking at the Corner of 9th and Park Streets
DATE: September 7, 2004

NEEDS: For the City Council to consider approving diagonal parking spaces in front of the new Estate Finance building located at the southeast corner of 9th and Park Streets.

- FACTS:**
1. The City received a request from Estate Finance to add diagonal parking in front of their new building at 806 9th Street.
 2. The frontage on 9th Street is not recommended for diagonal parking because of its proximity to the Emergency Services fire engine and rescue vehicles ingress and egress points.
 3. After field review and study, staff confirmed that the Park Street right-of-way width is appropriate for diagonal parking at this site. This block of Park Street was previously studied and approved as an appropriate area for diagonal parking as part of the Downtown Diagonal Parking Survey done in 2003.
 4. The Streets and Utilities Committee considered this request at their meeting of August 27, 2004, and voted 2-0 to recommend approval to the City Council.

**ANALYSIS
AND**

CONCLUSION: The area of downtown (corner of 9th and Park Streets) was surveyed and approved as an appropriate area for diagonal parking last year. If the Park Street frontage is approved and installed for diagonal parking, it will result in a net increase of 5 parking spaces (existing 6 parallel to 11 diagonal).

FISCAL

IMPACT: Site has existing curb making installation simply a matter of painting lines. Painting will be less than \$100 and done by maintenance crews.

- OPTIONS:**
- a** Approve Resolution No. 04-xx authorizing the addition of diagonal parking spaces on Park Street in front of the Estate Finance building, which will result in a net increase of 5 parking spaces.
 - b** Amend, modify, or reject the above option.
