SUBJECT: Initiate Proceedings for Annual Levy of Landscape and Lighting District
Fiscal Year 2007-2008
DATE: May 1, 2007

NEEDS: For the City Council consider initiating proceedings for annual levy of the Landscape & Lighting District for fiscal year 2007/2008.

- FACTS:**
1. The City Council formed a Landscape & Lighting Assessment District (L&L District) in 1989 for the maintenance of streetlights, hardscapes, detention basins, parkways, median islands, open space, slopes and other appurtenant facilities related to the L&L District.
 2. The City began assessing levies in 1993.
 3. The L&L District now consists of 120 designated sub areas comprised of over 4,000 lots.
 4. The annual levy is a two-step process. The first step is for the City Council to adopt Resolutions to initiate the proceedings by scheduling a Public Hearing. The second and final step would be the Public Hearing where the City Council could approve the final levy report.
 5. The FY07/08 Levy adjustment proceedings do not include a balloting component. Per City Council directive balloting will not be considered until 2009 at the earliest.

ANALYSIS &

CONCLUSION: The L&L District provides a funding mechanism to provide for public street lighting, landscaping and related facilities associated with various developments in the City. The idea is to achieve economy of scale by combining the efforts for all maintenance services within separate geographic locations (Individual “sub-areas” or groups of sub-areas known as “zones”). A single contractor provides most landscape maintenance services, contracting directly with the City. L&L District funding is determined annually, based upon several factors. Those factors include Street Light costs, Landscapes maintenance cost, water costs and administration costs.

In summary, each sub-area’s costs are determined based upon the landscape, lighting, and architectural amenities associated with a tract, and the costs associated with the maintenance of those improvements. Costs are apportioned to the parcels within each sub-area based on an equity-based formula. Each sub area essentially receives and is assessed for only those maintenance services and activities funded by property owners within that particular sub area.

Proposition 218

The flexibility to manage L&L Districts was changed by Proposition 218. Initially, Proposition 218 limited the maximum annual L&L District assessments to the

maximum historical sub-area levy amounts. For sub-areas in existence prior to Proposition 218, most had maximum amounts that were quickly eclipsed simply due to cost inflation. However, Proposition 218 also provide that a new maximum assessment or an increase to the existing assessment can be established by a property owner majority protest ballot proceeding, in which property owners elect to increase the maximum allowable levy.

For those sub-areas that a new or increased assessment has been proposed, but not approved by the property owners (In FY 2003/2004 and FY2006/2007), a reduction in service was instituted beginning September 1, 2006 to make the level of service commensurate with the assessment revenues available based on each sub-area's approved maximum assessment rate.

For Fiscal Year 2007/2008 no balloting is proposed.

For this Fiscal Year 2007/2008, the following sub-areas are being added:

Sub-Area 106 —Tract 2529 consisting of 21 planned residential lots;
Sub-Area 110 —Tract 2775 consisting of 17 planned residential lots; and,
Sub-Area 112 —Tract 2609 consisting of 20 planned residential lots.

Overview

Introduction

The City Council of the City of El Paso de Robles (hereafter referred to as “City”), County of San Luis Obispo, State of California, previously formed and has levied and collected annual assessments for the district designated as:

El Paso De Robles Landscape and Lighting Maintenance District No. 1

(hereafter referred to as “District”) pursuant to the provisions of the *Landscaping and Lighting Act of 1972, being Part 2 of Division 15 of the California Streets and Highways Code, commencing with Section 22500* (hereafter referred to as the “1972 Act”), and in compliance with the provisions of the *California State Constitution Articles XIII C and XIII D* (hereafter referred to as the “Constitution” or “Proposition 218”). This Engineer’s Report (hereafter referred to as “Report”) has been prepared pursuant to a resolution of the City Council in accordance with Chapter 3, Section 22622 of the 1972 Act, in connection with the improvements to be provided and the annual levy of assessments related thereto for fiscal year 2007/2008.

Each fiscal year, utilizing the historical and estimated costs to maintain the improvements that provide special benefit to properties within the District, the City establishes the District’s budgets and assessments (within the limits of the approved maximum assessments). The costs of the improvements and the proposed annual assessments budgeted and assessed against properties within the District includes the estimated expenditures, deficits, surpluses, revenues, and reserve fund balances determined to be of special benefit to properties within the District. Each parcel is assessed proportionately for only those improvements and expenses for which the parcel receives special benefit and accordingly, the City Council proposes to levy the annual assessments on the County tax rolls as described herein to fund the annual cost and expenses associated with the servicing and maintenance of the landscaping and lighting improvements for fiscal year 2007/2008, associated with and resulting from the development of properties within the District.

This Report has been prepared in accordance with Chapter 1, Article 4 (commencing with Section 22565) of the 1972 Act and describes the District and changes to the District including: territories annexed; modifications to the improvements or organization; and the proposed budgets and assessments applicable for fiscal year 2007/2008. The maintenance, operation and servicing of the improvements associated with specific areas of the District that provide a special benefit to the properties within those areas are grouped into benefit zones that have historically been identified in this District as Sub-Areas. These Sub-Areas identify the properties within a particular commercial development or residential subdivision that benefit from improvements that were installed in connection with the development of those properties or directly benefit those properties. While many of the improvements maintained by the District provide special benefits to only the properties

within a particular Sub-Area, some improvements installed as part of developing properties within one Sub-Area also provide a direct and special benefit to properties within nearby or adjacent Sub-Areas. In these cases, several Sub-Areas have been grouped into Zones based on these shared improvements and the cost of maintaining those shared improvements, are proportionately allocated to the properties within each of the individual benefiting Sub-Areas. However, not all Zones established within this District have improvements that are shared by each of the Sub-Areas within that Zone. Some of the District Zones represent geographical regions of the District, where the Sub-Areas may have similar improvements, but each Sub-Area is budgeted and assessed for only the improvements or that portion of an improvement that were installed and/or resulted from the development of the properties within that particular Sub-Area.

For the purposes of this Report, the word "parcel" refers to an individual property assigned its own Assessor Parcel Number by the San Luis Obispo County Assessor's Office. The San Luis Obispo County Auditor/Controller uses Assessor Parcel Numbers and specific Fund Numbers to identify properties assessed for special district benefit assessments on the tax roll.

Assessment History and Current Legislation

In November 1996, California voters approved Proposition 218 that established specific requirements for the on going imposition of taxes, assessments and fees. The provisions of the Proposition are now contained in the California Constitutional Articles XIIC and XIID. All assessments described in this Report and approved by the City Council are prepared in accordance with the 1972 Act and in compliance with these provisions of the Constitution.

Pursuant to the Article XIID Section 5 of the Constitution, certain existing assessments were exempt from the substantive and procedural requirements of the Article XIID Section 4, and property owner balloting is not required until such time that a new or increased assessment is proposed. Specifically, the City determined that the annual assessments originally established for the Sub-Areas 1, 2A, 3-16, 18-23, 25, 27, and 30 (pre-proposition 218 Sub-Areas) were imposed in accordance with a consent and waiver as part of the original development approval for the properties within these areas. As such, pursuant to Article XIID Section 5b, all the property owners approved the existing District assessments at the time the assessments were created (originally imposed pursuant to a 100% landowner petition). Therefore, the pre-existing assessments (the maximum assessment rates adopted prior to the passage of Proposition 218) for these Sub-Areas are exempt from the procedural requirements Article XIID Section 4. However, any new or increased assessment for these Sub-Areas shall comply with both the substantive and procedural requirements of Article XIID Section 4 before such assessments are imposed. The maximum assessment rates that previously existed for Sub-Areas 1, 2A, 3-16, 18-23, 25, 27, and 30 and adopted in fiscal year 1997/1998 (first fiscal year after Proposition 218) did not include the assessment range formula (inflationary adjustment) for their maximum assessment rates.

All subsequent properties and Sub-Areas that have been annexed to the District since November 1996 have been annexed in compliance with the City Attorney's interpretation of the substantive and procedural requirements of the Constitution, Article XIID. The maximum assessment presented to the property owners of record and adopted as part of these subsequent annexation procedures have included the District's assessment range formula (inflationary adjustment) for most, but not all of

the Sub-Areas. (Sub-Areas 2B, 28, 29, 31-35, 40 and 43 were annexed to the District without the assessment range formula.)

The following table (Table I) provides a listing of the Sub-Areas annexed to the District up through fiscal year 2007/2008 since the passage of Proposition 218 in November 1996:

In fiscal year 2003/2004 the City conducted a property owner protest ballot proceeding for a proposed assessment increase in several of the Sub-Areas within the District. Of those Sub-Areas balloted, majority protest did not exist in Sub-Area 3 and Sub-Area 22. Based on the results of this protest ballot proceeding, the City Council adopted new maximum assessment rates and the application of the assessment range formula for these two Sub-Areas as approved by the property owners of record.

To ensure that the District assessments accurately reflected the special benefit to each property, a full review of the District improvements, the cost of providing each of those improvements and an analysis of the parcels that benefit from each of the various improvements was conducted in fiscal year 2006/2007. As a result of this review and benefit analysis, the District structure (organization) was modified, by grouping several individual Sub-Areas into geographical areas. These geographical areas are referred to as Zones. Within these Zones the original Sub-Area designations were retained in most cases to appropriately identify properties and allocate the cost of specific improvements or

services that benefit properties within each of those Sub-Areas (some improvements are shared by more than one Sub-Area, while others are Sub-Area specific). In some cases, existing Sub-Areas were further divided and given new Sub-Area designations in order to distinguish variances in special benefits received from different improvements. This reorganization created a more defined District structure and nexus between the various District improvements and the properties that receive special benefit from those improvements. In conjunction with this reorganization, the City conducted another property owner protest ballot proceeding for various new or increased assessments, balloting all affected properties within each respective Sub-Area or Zone as applicable. While a significant portion of the Sub-Areas and Zones balloted in fiscal year 2006/2007 did not approve the proposed new or increased assessments, majority protest did not exist for the following Zones and Sub-Areas:

Zone 03 — Sub-Areas 20, 30, and 25;

Zone 06 — Sub-Area 42 (A-D);

Zone 07 — Sub-Areas 45 (A-E), 21, and 63;

Zone 09 — Sub-Areas 52 (A-E);

Zone 13 — Sub-Areas 7, 2, and 46;

Sub-Area 28 (stand-alone Sub-Area); and,

Sub-Area 33 (stand-alone Sub-Area)

At the conclusion of the annual public hearing for the District in fiscal year 2006/2007, the City Council approved and adopted the new maximum assessments for the Sub-Areas listed above, that included the District's previously established Assessment Range Formula. For those Sub-Areas that did not approve the proposed new or increased assessments, the previously approved maximum assessments were adopted and the corresponding budgets and assessments for fiscal year 2006/2007 were adjusted to reflect those assessments. However, the reorganization of the District's structure that established the thirteen (13) new Zones was implemented.

Description of the District

In general, the District provides for the continued maintenance, servicing, and operation of various landscaping and lighting improvements and appurtenant facilities located within the public rights-of-way and dedicated easements associated with specific developments and/or tracts within the City through the levy of annual assessments. As properties within the City are approved for development (new commercial developments or residential tracts) they have historically been annexed to the District as a new Sub-Area with a maximum assessment established and approved by the property owners to support the estimated annual cost to provide the improvements associated with that Sub-Area. Each property is assessed proportionately for only the improvements and associated expenses determined to be of special benefit to that property and these improvements are generally identified as public street lighting and landscape improvements and all incidental expenses related thereto including, but not limited to administrative expenses, labor, materials, equipment and services associated with the maintenance of street lighting, trees, turf, shrubs and other planting materials, irrigation systems, drainage systems, detention basins, open space areas, public pedestrian paths, and entry monuments.

This District was formed to fund the ongoing maintenance and operation of landscaping and lighting improvements associated with new developments in the City, and the City has continued to annex various commercial and residential developments to the District as Sub-Areas to support the improvements associated with those developments pursuant to the provisions of the 1972 Act and the California Constitution, Article XIID. For fiscal year 2007/2008, the District is comprised of one hundred twenty-one (121) designated Sub-Areas, of which it is proposed that one hundred seventeen (117) will be assessed in fiscal year 2007/2008. These designated Sub-Areas are identified as Sub-Areas 1 through 112 excluding:

- ❖ Sub-Area designations 17, 24, 26, 65 and 84, which were originally established for specific planned developments, but the development and annexation/formation were not completed;
- ❖ Sub-Area 80, which was originally established in fiscal year 2004/2005, but the developments for this Sub-Area were subsequently re-designated as Sub-Areas 36C, 36D, 36E and 36F; and,
- ❖ Sub-Areas 103, 104, 105, 107, 108, 109, and 111, which have been reserved for planned future developments that are in various stages of planning, but have not yet been annexed to the District.

Modifications (Changes) to the District

Modifications to the District structure, if any, could include but are not limited to changes or expansion of the existing improvements or services provided; addition of new services; addition of new Sub-Areas; restructuring of the current Sub-Areas; annexation of parcels into the District; or revisions to the method of apportionment.

Annexations

In response to petitions filed by property owners, three (3) new Sub-Areas and the properties therein have been annexed into the District for fiscal year 2007/2008. The property owners of record within these new Sub-Areas were balloted for their proposed maximum assessments and annexed to the District under separate proceedings. The following table (Table II) provides a summary of the properties annexed to the District for fiscal year 2007/2008.

TABLE II
ANNEXATIONS FOR FISCAL YEAR 2007/2008

District Sub Area	Subdivision	Total Parcels	Benefit Units	Maximum Rate
Sub Area 106	Tract 2529	23	21.00	\$900.00
Sub Area 110	Tract 2775	17	17.00	\$600.00
Sub Area 112	Tract 2609	25	20.00	\$450.00

Modifications to the District Structure

Based on the District restructuring and protest ballot proceedings conducted in fiscal year 2006/2007, the District structure for fiscal year 2007/2008 has been modified to consolidate some of the previous lettered Sub-Area designations within the District because they benefit from the same improvements and have the same approved maximum assessment rates, including:

- ❖ Sub-Areas 42A, 42B, 42C, and 42D have been combined into a single designation: "Zone 06 — Sub-Area 42 (A-D)"; and,
- ❖ Sub-Areas 45A, 45B, 45C, 45D, and 45E have been combined into a single designation: "Zone 07C — Sub-Area 45 (A-E)".
- ❖ Sub-Areas 52A, 52B, 52C, 52D, and 52E have been combined into a single designation: "Zone 09 — Sub-Area 52 (A-E)".

In addition to the Sub-Area consolidations listed above, Sub-Area 91 (not previously assessed) has been identified as one of the Sub-Areas associated with existing improvements and other Sub-Areas within Zone 01 and has therefore been made part of that Zone; Sub-Area 2C has been split into Sub-Area 2C-1 (Tract 1632-6) and 2C-2 (Tract 1632-7) to reflect differences in the special benefits properties within these tracts receive from the improvements provided by the District; and that portion of the original Sub-Area 72A that is being developed as a gated residential subdivision is now designated as 72D to reflect the differences in the special benefits properties within these two neighborhoods receive from the improvements to be provided by the District. None of the District structure changes being made for fiscal year 2007/2008 requires property owner balloting for a new or increased assessment, and are being made solely for the purposes of identifying and tracking the costs and proportional special benefit assessments applicable to various improvements and properties.

A general description of the improvements, Zones and Sub-Areas for fiscal year 2007/2008 is provided in the following sections and is summarized in Table III. Maps showing the boundaries of each of the District Sub-Areas and related District improvements are on file in the office of Public Works and by reference are made part of this Report.

District Zones and Sub-Areas

In addition to the various Sub-Area designations for the District, there are currently thirteen (13) designated Zones (geographical areas) of the District that comprise one or more of the District's Sub-Areas. While these Zones were established based on similarities in the type and/or location of the improvements that provide special benefits to properties within each of the Sub-Areas (similar improvements and/or services), or they proportionately share in the special benefits provided by one or more of the specific improvement provided within that Zone (shared improvements); some Zone designations currently identify groups of Sub-Areas within the District based solely on their geographical proximity to one another and the budgets and assessments for each Sub-Area are established independent of the other Sub-Areas within the Zone.

Zones

The following provides a general description of the developments and Sub-Areas that have been established as Zones within the District as well as a general description and classification of the improvements associated with the Zone (both shared and sub-area specific improvements).

Shared Improvements: Those improvements identified as "Shared Improvements" may include improvements that are proportionately shared by all parcels within a Zone, or may be proportionately shared by a portion of the designated Sub-Areas or tracts within the Zone. Generally for most Zones, improvements such as local street lighting and perimeter landscaping are typically associated with each Sub-Area in a Zone, and the cost to provide these improvements are proportionately assessed to all parcels within the Zone. However, other improvements may be of special benefit to only a portion of the Zone, depending on the location and nature of the improvement in relationship to the parcels within the Zone. In these situations, the budgeted cost for providing that particular improvement may be budgeted and proportionately assessed to a subset of the Sub-Areas within the Zone or to a specific Sub-Area only. However, not all District Zones have improvements that are identified as "Shared Improvements". Some Zones include Sub-Areas that are grouped together because they are in close proximity to one another and/or they have a similar improvements to be maintained, but the actual cost of maintaining the those improvements are budgeted as "Sub-Area Specific Improvements" only.

Sub-Area Specific Improvements: Those improvements classified as "Sub-Area Specific Improvements" are considered a special benefit to the parcels within a particular Sub-Area, and the budgeted cost of providing those improvements are proportionately allocated only to the parcels within that Sub-Area. In some instances however, a specific improvement may be considered primarily a "Sub-Area Specific Improvement" because of the specific location or type of improvement, but the improvement may also provide a reduced similar special benefit to properties in other Sub-Areas of the Zone. In these situations, a portion of the cost may be allocated as a sub-

Area specific cost with the remaining portion being treated as a shared improvement cost that is allocated to each Sub-Area that receives special benefit from that improvement. Therefore, a specific improvement within a Zone may be treated as both a "Shared" and a "Sub-Area Specific" improvement.

Funding Note: The available funding to maintain various improvements within a Zone or Sub-Area is sometimes limited by the assessment revenues that can be allocated to that particular improvement or Sub-Area due to the approved maximum assessment rates of the Sub-Areas associated with that improvement. While it is the City's desire to provide full service maintenance throughout the District, the current maximum assessment rates for some Sub-Areas requires that the level of maintenance and operation of the improvement be reduced, based on available assessment revenues. Unfortunately, the funding necessary to fully maintain a particular improvement that provides a special benefit to more than a single Sub-Area is often limited by the Sub-Area that has the lowest maximum assessment rate (revenue generating capability). While another Sub-Area's maximum assessment rate may be more than sufficient to proportionately support full maintenance of a particular improvement, it is neither reasonable nor equitable for that Sub-Area to be assessed a disproportionate amount of the maintenance costs of that shared improvement simply because another benefiting Sub-Area has not approved an assessment that would support full service.

Those improvements identified as shared improvements, are given priority in the allocation of available assessment revenues from each of the Sub-Areas, with street lighting being given the highest priority. Sub-Area specific improvements have the least priority, and the level of service provided for those improvements directly depend on the Sub-Areas available revenues after their proportionate allocation of the Zones' shared improvements has been budgeted.

Zone 01:

Zone 01 is comprised of those residential subdivisions and properties generally located on the north side of Union Road and east of North River Road. The Sub-Areas within Zone 01 include:

- Sub-Area 1 — Tract 1581-1 and portion of 1581-2 (Riverglen);
- Sub-Area 4 — Tract 1619 (Golden Hills Development);
- Sub-Area 18 — Tract 1581-2 (Riverglen);
- Sub-Area 47 — Tract 2137-1 (Riverglen);

- Sub-Areas 69A, 69B, 69C and 69D — Tracts 2369-1 through 2369-4; and,
- Sub-Area 91 — Tract 2571

The costs associated with the various improvements within the Zone have been budgeted and apportioned to each Sub-Area and the parcels therein, based on their proportional special benefit from each of the various improvements provided within the Zone. While some of the improvements within the Zone are shared proportionately by more than one Sub-Area, other improvements are considered Sub-Area specific and the cost of providing those improvements are assessed to only properties within that specific Sub-Area.

Shared Improvements:

The following is a list of improvements that are proportionately shared by one or more Sub-Areas within this Zone. Local street lighting and perimeter landscaping on Union Road and North River Road are directly associated with each Sub-Area and are proportionately budgeted and assessed to all parcels within the Zone, while other shared improvements may be proportionately budgeted and assessed to two or more Sub-Areas depending on the location and nature of the improvement in relationship to the parcels within the Zone.

Improvements Shared by All Sub-Areas of the Zone:

- Local street lighting improvements;
- Irrigated parkway and Slope (Shrubs) on Union Road (Area Behind Sidewalk).

Improvements Shared by Two or More Sub-Areas:

- Non-irrigated open space area within Sub-Area 1 — Primarily budgeted as sub-area specific to Sub-Areas 1 and 18, but a portion of the cost is also allocated to Sub-Areas 4, 47, 56 and 58 for their proportional special benefit;
- Non-irrigated open space area between Sub-Areas 1 and 58 and adjacent to Sub-Area 18 — Primarily budgeted as sub-area specific to Sub-Areas 1, 18 and 58, but a portion of the cost is also allocated to Sub-Areas 4, 47 and 56 for their proportional special benefit;

- Non-irrigated open space area within Sub-Area 47 and adjacent to Sub-Areas 58 and 56 — Primarily budgeted as sub-area specific to Sub-Areas 47, 56 and 58, but a portion of the cost is also allocated to Sub-Areas 1, 18 and 4 for their proportional special benefit;
- Irrigated open space area on Via Rosa located between 4 and 47 — Primarily budgeted as sub-area specific to Sub-Area 47, but a portion of the cost is also allocated to Sub-Areas 1, 18, 4, 56 and 58 for their proportional special benefit; and,
- Non-irrigated open space area North of Sub-Area 69 and 91 and near Sub-Areas 47 and 56 — Primarily budgeted as sub-area specific to Sub-Areas 69 (A-D) and 91, but a portion of the cost is also allocated to Sub-Areas 47 and 56 for their proportional special benefit.

Sub-Area Specific Improvements:

The following is a list of improvements that provide special benefits to specific Sub-Areas within Zone 01. The cost of providing these improvements are budgeted and proportionately assessed to only the parcels within each respective Sub-Area that receives special benefits from that improvement.

For Sub-Area 47:

- Irrigated parkway (Turf) on Riverglen Drive (Via Camilla to Skyview Dr) — Primarily budgeted as sub-area specific to Sub-Area 47, but a small portion of the cost to maintain this landscaping is allocated to Sub-Areas 1, 18, 4, 56 and 58 for their proportional special benefit of the landscaping on Riverglen Drive.

For Sub-Area 51:

- Irrigated parkway and Slope (Shrubs) on Kleck Road (Union Road up to Sub-Area 69; approximately 200 ft North of Windsong Way) — Primarily budgeted as sub-area specific to Sub-Area 51, but a small portion of the cost is also allocated to Sub-Areas 6, 19, 55, 69 A-D and 91 for their proportional special benefit.

For Sub-Area 91:

- Irrigate parkways (Shrubs) within Sub-Area 91.

The cost to provide each improvement within the Zone is proportionately allocated to those parcels that receive special benefits from that improvement. Because the available revenues at the approved maximum assessment rates in some Sub-Areas limit available funding, the level of service to

maintain various shared improvements as well as sub-area specific improvements shall be monitored and modified or adjusted according to the assessment revenues available from the benefiting Sub-Areas

Zone 02:

Zone 02 is comprised of those residential subdivisions and properties generally located north of Meadowlark Road, east of Oriole Way and west of the City limits. The Sub-Areas within Zone 02 include:

- Sub-Area 2A-1 — Tracts 1632-1 and 1632-2;
- Sub-Area 2A-2 — Tract 1632-3;
- Sub-Area 2A-3 — Tract 1632-4;
- Sub-Area 2B — Tract 1632-5;
- Sub-Area 2C-1 — Tract 1632-6;
- Sub-Area 2C-2 — Tract 1632-7;
- Sub-Area 2D — Tract 1632-8;
- Sub-Area 2E — Tract 1632-9;
- Sub-Area 2F — Tract 1632-10; and,
- Sub-Area 15 — Tract 1832 (Erskine).

The costs associated with the various improvements within the Zone have been budgeted and apportioned to each Sub-Area and the parcels therein, based on their proportional special benefit from each of the various improvements provided within the Zone. While some of the improvements within the Zone are shared proportionately by more than one Sub-Area, other improvements are considered Sub-Area specific and the cost of providing those improvements are assessed to only properties within that specific Sub-Area.

Shared Improvements:

The following is a list of improvements that are proportionately shared by one or more Sub-Areas within this Zone. Some improvements are proportionately budgeted and assessed to all parcels within the Zone, while others may be proportionately budgeted and assessed to two or more Sub-Areas depending on the location and nature of the improvement in relationship to the parcels within the Zone.

Improvements Shared by All Sub-Areas of the Zone:

- Local street lighting improvements;
- Irrigated parkway and slope (Shrubs) on north side of Meadowlark Road;
- Irrigated parkway (Shrubs) on Oriole Way between Cool Valley Road and Meadowlark Road;

- Irrigated medians (Shrubs) on Airport Road — Shared by all Sub-Areas except 15 and 2A-1.

Sub-Area Specific Improvements:

The following is a list of improvements that provide special benefits to specific Sub-Areas within Zone 02. The cost of providing these improvements are budgeted and proportionately assessed to only the parcels within each respective Sub-Area that receives special benefits from that improvement.

For Sub-Area 2A-1:

- Detention Basin (Turf) in Tracts 1632-1 and 1632-2 (Sub-Area 2A-1) — This area will receive minimal maintenance and the irrigation has been eliminated;

- Open space area in Tracts 1632-1 and 1632-2 (Sub-Area 2A-1) — Primarily budgeted as sub-area specific to Sub-Area 2A-1, but because of its location a small percentage of the cost is also shared by Sub-Areas 2A-1, 2A-2, 2B and 2D. This area will receive minimal maintenance and the irrigation has been eliminated.

For Sub-Area 2A-3:

- Internal parkways (Turf) within Tract 1632-4 (Sub-Area 2A-3) — This area will receive minimal maintenance and the irrigation has been eliminated.

The cost to provide each improvement within the Zone is proportionately allocated to those parcels that receive special benefits from that improvement. Because the available revenues at the approved maximum assessment rates in some Sub-Areas limit available funding, the level of service to maintain various shared improvements as well as sub-area specific improvements shall be monitored and modified or adjusted according to the assessment revenues available from the benefiting Sub-Areas.

Zone 03:

Zone 03 is comprised of those residential subdivisions and properties generally located south of Larkfield Place, west of Oriole Way, north of Meadowlark Road and east of Beechwood Drive. This Zone includes the parcels within following developments:

- Sub-Area 20 — PM 91-088 (Grantham), located south of Larkfield Place, west of Oriole Way, north of Ashwood Place, and east of Beechwood Drive;

The following is a list of improvements that are proportionately shared by the Sub-Areas within this Zone and the parcels therein.

Improvements Shared by All Sub-Areas of the Zone:

Sub-Area Specific Improvements:

No improvements for this Zone have been identified as sub-area specific improvements. All improvements are budgeted and assessed proportionately as shared special benefits.

Zone 04:

Zone 04 is comprised of those residential subdivisions and properties generally located west of the Salinas River, east of South River Road, north of Charolais Road extension and south of Niblick Road. This Zone includes the parcels within following developments:

- Sub-Area 27 — Tract 1508-4 (Riverbank), located along the north side of Charolais Road extension, south of Bridgegate Lane and west of Riverbank Lane.

Each residential parcel within this Zone proportionately benefits from and is assessed for the maintenance and operation of improvements provided within the Zone that were installed in connection with the development of properties within the Zone and/or Sub-Areas.

The cost to provide each of the improvements within the Zone is proportionately allocated to each parcel within the Zone. Because the available revenues at the approved maximum assessment rates for these Sub-Areas limit available funding, the level of service to maintain various improvements has been modified to a level of service that is consistent with the assessment revenues available. Priority has been given to funding the street lighting and irrigation of the landscaped areas, but the level of maintenance will be less than full services.

Sub-Area Specific Improvements:

No improvements for this Zone have been identified as sub-area specific improvements. All improvements are budgeted and assessed proportionately as shared special benefits.

Zone 05:

Zone 05 is comprised of those residential subdivisions and properties generally located east of the Salinas River, north of State Highway 46 and west of Buena Vista Drive. The Sub-Areas within Zone 05 include:

- Sub-Area 36G — Tract 2457-4(River Oaks Community, Lots 1 through 62, and 206 through 210).

The costs associated with the various improvements within the Zone have been budgeted and apportioned to each Sub-Area and the parcels therein, based on their proportional special benefit from each of the various improvements provided within the Zone. While each Sub-Area shares some improvements within the Zone proportionately, other improvements are considered sub-area specific improvements that are assessed to only properties within that specific Sub-Area.

Shared Improvements:

The following is a list of improvements that are proportionately shared by Sub-Areas within this Zone.

Improvements Shared by All Sub-Areas of the Zone:

- Local street lighting improvements;

Sub-Area Specific Improvements:

The following is a list of improvements that provide special benefits to specific Sub-Areas within Zone 05. The cost of providing these improvements are budgeted and proportionately assessed to only the parcels within each respective Sub-Area that receives special benefits from that improvement.

For Sub-Area 36A

- Irrigated parkways (Turf) within Tract 1895-1, Stonebrook Circle — Less than full maintenance has been budgeted due to assessment revenue limitations, but budgeted for full irrigation.

For Sub-Area 36G

- Irrigated parkways (Turf) within Tract 2457-4 — Less than full maintenance has been budgeted due to assessment revenue limitations, but budgeted for full irrigation.

The cost to provide each improvement within the Zone is proportionately allocated to those parcels that receive special benefits from that improvement. Because the available revenues at the approved maximum assessment rates in some Sub-Areas limit available funding, the level of service to maintain various sub-area specific improvements have been modified to be consistent with the assessment revenues available from the benefiting Sub-Areas. For fiscal year 2007/2008 the level of maintenance provided for the internal turf landscaping in Sub-Areas 36A, 36E, 36F and 36G shall be less than full service due to the restricted assessment revenues available in those Sub-Areas.

The costs associated with the various improvements within the Zone have been budgeted and apportioned to each Sub-Area and the parcels therein, based on their proportional special benefit from each of the various improvements provided within the Zone. While some of the improvements within the Zone are shared proportionately by all Sub-Areas, other improvements are considered Sub-Area specific and the cost of providing those improvements are assessed to only properties within that specific Sub-Area.

Shared Improvements:

The following is a list of improvements that are proportionately shared by the Sub-Areas within this Zone.

Improvements Shared by All Sub-Areas of the Zone:

The cost to provide each improvement within the Zone is proportionately allocated to those parcels that receive special benefits from that improvement. Because the available revenues at the approved maximum assessment rates in some Sub-Areas may limit available funding, the level of service to maintain various shared improvements as well as sub-area specific improvements shall be monitored and modified or adjusted according to the assessment revenues available from the benefiting Sub-Areas.

Zone 08:

Zone 10:

Zone 10 is comprised of those residential subdivisions and properties generally located along Golden Hill Road and Rolling Hills Road, south of Union Road. The costs associated with the various improvements within the Zone have been budgeted and apportioned to each Sub-Area based on their proportional special benefit from the specific improvements to be maintained by the District and associated with that Sub-Area. The Sub-Areas within Zone 10 include:

- Sub-Area 13 — Tract 1886 (Summit Hills), located west of Golden Hill Road and south of Union Road;

- Sub-Areas 72A, 72B, 72C, and 72D — Tract 2350, located along the east side of Rolling Hills Road and the west side of Golden Hill Road.

The costs associated with the various improvements within the Zone have been budgeted and apportioned to each Sub-Area and the parcels therein, based on their proportional special benefit from each of the various improvements provided within the Zone. While this Zone includes several different Sub-Areas that have frontage along Golden Hill Road and/or Rolling Hills Road, the improvements for each Sub-Area are currently budgeted and assessed to each Sub-Area independent of the other Sub-Areas. The improvements associated with Sub-Areas 13, 40 and 67 are budgeted and assessed as sub-area specific improvements for each respective Sub-Area. For those Sub-Areas that comprise Sub-Area 72 (Sub-Areas 72A, 72B, 72C, and 72D) many of the improvements are shared improvements, with the costs being proportionately budgeted and assessed to all parcels within Sub-Areas 72A, 72B, 72C, and 72D. In addition to these shared improvements, Sub-Areas 72A, 72B and 72C have internal landscape improvements that are budgeted and assessed to only those Sub-Areas.

Shared Improvements (Sub-Areas 72A, 72B, 72C, and 72D):

Several of the District improvements within Sub-Area 72 are proportionately shared by each of the underlying Sub-Areas (Sub-Areas 72A, 72B, 72C, and 72D). Generally, these shared improvements include local street lighting and the perimeter landscaped areas on Golden Hill Road and Rolling Hills Road that surround or are adjacent to these developments. These improvements are proportionately budgeted and assessed to all parcels within Sub-Area 72, while other landscaped improvements within the Sub-Area are budgeted and assessed as sub-area specific improvements.

The other Sub-Areas within Zone 10 share none of the improvements associated with Sub-Area 72, and the parcels within Sub-Area 72 do not share the improvements associated with the other Sub-Areas. The following is a list of improvements that are proportionately shared by the parcel within Sub-Area 72:

The costs associated with the various improvements within the Zone have been budgeted and apportioned to each Sub-Area and the parcels therein, based on their proportional special benefit from each of the various improvements provided within the Zone. While all Sub-Areas within the Zone share some of the improvements within the Zone proportionately, the majority of the parkway landscaping within the Zone is considered a sub-area specific improvement and the cost of providing those specific landscape improvements are assessed to only properties within each respective Sub-Area.

While this Zone includes several different Sub-Areas that have frontage along Charolais Road and/or Beechwood Drive, the improvements associated with Sub-Areas 3 and 54 are budgeted and assessed as sub-area specific improvements for each respective Sub-Area including the landscape improvements along Charolais Road. For those Sub-Areas that comprise Sub-Area 70 (Sub-Areas 70A, 70B, and 70C) and Sub-Area 89, the perimeter landscaping surrounding these developments are considered shared improvements, with the cost of these shared improvements being proportionately budgeted and assessed to the parcels within each of these Sub-Areas. In addition to these shared improvements, each Sub-Area has street lighting and landscape improvements that are budgeted and assessed to each respective Sub-Area.

Shared Improvements:

The perimeter landscaping associated with Sub-Areas 70A, 70B, 70C and 89 are proportionately shared by each of these Sub-Areas. The following is a list of improvements that are proportionately shared by two or more Sub-Areas within Zone 12:

Method of Apportionment

The 1972 Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements which include the construction, maintenance and servicing of public lights, landscaping and appurtenant facilities. The 1972 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

The formula used for calculating assessments in each applicable Zone or Sub-Area of the District therefore reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on the special benefits to each parcel.

Benefit Analysis

Each of the proposed improvements, the associated costs and assessments have been carefully reviewed, identified and allocated based on special benefit pursuant to the provisions of the Constitution and 1972 Act. The improvements associated with each Zone and Sub-Area of the District have been identified as necessary, required and/or desired for the orderly development of the properties within the District to their full potential, consistent with the proposed development plans and applicable portions of the City General Plan. As such, these improvements would be necessary and required of individual property owners for the development of such properties, and the ongoing operation, servicing and maintenance of these improvements would be the financial obligation of those properties. Therefore, the improvements and the annual costs of ensuring the maintenance and operation of the improvements are of direct and special benefit to the properties.

The method of apportionment (method of assessment) is based on the premise that each assessed parcel within the District receives special benefit from various improvements provided by the District. The desirability and security of properties is enhanced by the presence of local improvements in close proximity to those properties.

The special benefits associated with landscaped improvements are specifically:

- ◆ Enhanced desirability of properties through association with the improvements.
- ◆ Improved aesthetic appeal of properties providing a positive representation of the area.
- ◆ Enhanced adaptation of the urban environment within the natural environment from adequate green space and landscaping.
- ◆ Environmental enhancement through improved erosion resistance, dust and debris control.
- ◆ Increased sense of pride in ownership of property within the District resulting from well-maintained improvements associated with the properties.

- ◆ Reduced criminal activity and property-related crimes (especially vandalism) against properties in the District through well-maintained surroundings and amenities including abatement of graffiti.
- ◆ Enhanced environmental quality of the parcels by moderating temperatures, providing oxygenation and attenuating noise.

The special benefits associated with street lighting are specifically:

- ◆ Enhanced deterrence of crime and the aid to police protection.
- ◆ Increased nighttime safety on roads and streets.
- ◆ Improved ability of pedestrians and motorists to see.
- ◆ Improved ingress and egress to property.
- ◆ Reduced vandalism and other criminal act and damage to improvements or property.
- ◆ Improved traffic circulation and reduced nighttime accidents and personal property loss.
- ◆ Increased promotion of business during nighttime hours in the case of commercial properties.

Based on the preceding special benefits, it has been determined that the improvements provided by the District and for which parcels are assessed, contribute to the safety, security, aesthetic value and desirability of those properties. It has further been determined that these improvements, either individually or collectively are provided for the special benefit and enhancement of properties within the District and provide no measurable general benefit to properties outside the District or to the public at large.

Assessment Methodology

The benefit formula used within each Zone and/or Sub-Area of the District may vary, but reflects the composition of the parcels, and the improvements and services provided, to fairly apportion the costs based on the special benefits to each assessable parcel. It has been previously determined that dedicated public easements, open space areas, public rights-of-ways, public greenbelts and parkways, utility rights-of-way, common areas, sliver parcels and bifurcated lots or any other property that cannot be developed, park properties and other publicly owned properties that are part of the District improvements or that have little or no improvement value, receive no special benefit from District improvements and are not assessed.

Acreege Benefit Calculation:**ZONE 13; and,****SUB AREAS 10, 14 and 23**

When Sub-Areas 7, 10, 14, 22, and 23 were originally established and the assessments were approved, the composition of the parcels and the improvements to be provided made an apportionment of the maintenance costs and special benefits based on parcel acreage the most equitable method of apportionment. Sub-Areas 7 and 22 along with Sub-Area 46 have been reorganized into Zone 13 based on their shared benefit from various improvements. As part of this reorganization, the method of apportionment for Sub-Area 46 was modified from a per parcel apportionment to an acreage apportionment. The following formula is used to arrive at the levy amount for each parcel within Zone 13 and Sub-Areas 10, 14 and 23.

$$\frac{\textit{Total Balance to Levy}}{\textit{Total Acres}} = \textit{Levy per Acre}$$

$$\textit{Levy per Acre (rate)} \times \textit{Parcel Acreage} = \textit{Parcel Levy Amount}$$

Per Parcel Benefit Calculation:**ZONES 1-12; and,****SUB AREAS 8, 9, 11, 12, 28, 33, 34, 35, 37, 41, 43, 44, 49, 50, 53, 59-62, 64, 66, 68, 71, 73, 74, 77-79, 81-83, 85-88, and 91-112.**

While a per acre method of apportionment is an appropriate calculation of special benefit for some benefit zones, most developments and Sub-Areas within the District are comprised entirely of single family residential properties or the improvements to be maintained are associated with a specific commercial development. For these developments it was determined that the most appropriate apportionment of maintenance costs and special benefit was an equal per parcel distribution. This method of apportionment is used in most of the Zones and Sub-Areas of the District to proportionately allocate the net annual cost of the improvements (special benefit) to each parcel. The total amount to be levied in each Sub-Area, Zone or Sub-zone is shared and assessed equally to each benefiting parcel. The following formula is used to arrive at the levy amount for each parcel within these Sub-Areas.

$$\frac{\textit{Total Balance to Levy for Improvements}}{\textit{Total Assessable Parcels}} = \textit{Parcel Levy Amount}$$

Assessment Range Formula (Inflationary Adjustment)

The maximum annual assessment that may be levied each fiscal year for many of the District's Sub-Areas includes an annual inflationary adjustment to the maximum assessment rate based on the percentage change in the Consumer Price Index reported by the San Francisco/Oakland Urban Wage Earners and Clerical Workers increase. Although the maximum rate for these Sub-Areas may be increased each year, the actual amount to be assessed is based on the annual budget and may be less than the maximum rate. The property owners must approve any proposed new or increased assessment that exceeds the adjusted maximum rate, before that assessment may be imposed. The Assessment Range Formula (inflationary adjustment) adopted for the District assessments is based on the annual percentage change in the Consumer Price Index reported by the San Francisco/Oakland Urban Wage Earners and Clerical Workers and available at the time the Engineer's Report is prepared.

The maximum assessment that may be levied in a fiscal year is increased annually by the following formula

$$\left. \begin{array}{l} \textit{(Prior Year's Annual Maximum Assessment x CPI)} \\ \textit{Plus} \\ \textit{Prior Year's Annual Maximum Assessment} \end{array} \right] = \textit{Current Year's New Annual Maximum Assessment}$$

The percentage change used is the annual change for the preceding 12 months. The annual inflation factor applied for fiscal year 2007/2008 is based on the annual percentage change from 2006 to 2007 (February to February), and has been identified as 3.1%.

The following table (Table IV) provides a listing of all Sub-Areas within the District for which the Assessment Range Formula (annual inflationary adjustment) for the maximum assessment rates have been approved and previously adopted.

District Budgets Fiscal Year 2007/2008

The following pages provide the proposed budgets and assessment rates for each of the Zones and/or Sub-Areas within the District for fiscal year 2007/2008. These budgets include the City's estimate of anticipated expenditures, deficits, surpluses, revenues, and reserve fund balances associated with the annual maintenance and operation of the improvements. The net cost of providing the improvements in each Zone and/or Sub-Area is proportionately allocated to each benefiting parcel with each respective Zone and/or Sub-Area using the adopted method of apportionment to calculate the proportional special benefit to properties within the District. Each parcel within the District is therefore assessed proportionately for only the improvements associated with the parcel and determined to be of special benefit.

The following budgets may include one or more of the following footnote references:

Foot Notes:

- 1 No Direct Costs are anticipated for the upcoming fiscal year and no assessment will be levied.
- 2 Currently assessed for Street Lights Only
- 3 Not all of the planned improvements will be accepted for maintenance this fiscal year. Properties will be assessed for that portion of the improvements anticipated to be maintained for the fiscal year.
- 4 The Sub-Area is part of a Zone that has some shared improvements with other sub-areas, it's budget reflects the Sub-Areas' specific improvements as well as its proportional cost and special benefit from any shared zone improvements that may be funded by available assessment revenues for the sub-area.
- 5 Although the Sub-Area is part of a Zone, it's budget reflects the Sub-Areas' proportional cost and special benefit from sub-area specific improvements only that may be funded by available assessment revenues for the sub-area.
- 6 A New Maximum Assessment was approved by property owners in fiscal year 2006/2007, including the inflationary adjustment.
