SUBJECT: Tourism & Lodging Promotions Business Improvement District (BID)
Renewal of Assessment

DATE: January 7, 2014

NEEDS: For the City Council to consider the annual renewal of the assessment for the Tourism and Lodging Promotions Business Improvement District (BID).

FACTS:

1. At the request of the majority of Paso Robles hoteliers, the BID was formed via ordinance by the City Council in December 2008 and the BID became effective January 16, 2009.
2. Per the Parking and Business Improvement Area Law (Streets and Highways Code Sections 36500 et seq.) under which the BID was formed, the assessment is levied on an annual basis and has been renewed every year since 2009.
3. Renewal of the BID tax assessment requires that the City Council receive an annual report on the budget and workings of the BID and set a public hearing for consideration of the renewal of the levy of assessment.
4. On November 26, 2013, the Travel Paso Robles Alliance (TPRA) Advisory Committee recommended approval and distribution of the 2013/14 Annual Report, the 2014/15 Marketing Plan/Budget, and the continued levy of the Assessment.
5. On December 17, 2013, the City Council approved the annual report and directed that it be made available for public review in the City Clerk's office. That same date, the Council adopted Resolution No. 13-166 setting the Public Hearing for consideration of this item for January 7, 2014 and directed the notice to be published in the local newspaper.
6. Resolution No. 13-166 was published in the Tribune in its entirety.
7. The BID's 2013/14 annual report and the 2014/15 marketing plan and budget are attached.

8. At the public hearing on January 7, 2014, the testimony of all interested persons, for or against the establishment of the BID, the boundaries of the BID, the area of benefit within the BID, the Assessment to be levied, or the furnishing of specified types of improvements or activities, will be heard.
9. A protest may be made orally or in writing by any interested person. Any written protest as to the regularity or evidence of the proceedings shall be in writing and clearly state the irregularity or defect to which the objection is made.
10. Written protests must be received by the City Clerk at or before the time set for the public hearing. A written protest may be withdrawn in writing at any time before the conclusion of the public hearing. Each written protest shall contain a written description of the business in which the person subscribing the protest is interested sufficient to identify the business. If the person subscribing is not shown on the official records of the City as the owner of the business, then the protest shall contain or be accompanied by written evidence that the person is the owner of the business.
11. If at the conclusion of the public hearing, there are of record, written protests by the owners of the tourist lodging establishments within the BID that would pay fifty percent (50%) or more of the total assessments of the entire BID, no further proceedings to renew the annual levy for the BID shall occur. New proceedings to form the District shall not be undertaken again for a period of at least one (1) year from the date of the finding of the majority written protests by the City Council. If the majority of written protests are only as to an improvement or activity proposed, then that type of improvement or activity shall not be included in the BID.

Brand Awareness

Consistent Brand Messaging

Brand Messaging is what sets one product or destination apart from another. In an effort to consistently grow Paso Robles brand awareness and increase top of mind exposure to key drive markets, regional fly-drive audiences, and to obtain incremental growth in the national and international spot lights, Mental maintained a consistent flow of advertising and public relations activities to influential niche markets throughout the year, including advertising throughout the summer high season for the first time. Steady messages supporting the diverse attractions in and around Paso Robles, supplementing the essential wine message with a focus on events, agri-tourism, food, outdoor adventure, and local attractions backs the “authentic” brand emphasizing the diverse offerings that set Paso apart from the competition.

Impact of Tourism Marketing

Over the past 4.5 years the TPRA has spent 2.73 million dollars on marketing programs branding Paso Robles as a diverse, world-class food, wine and outdoor destination nearby Hearst Castle and coastal beaches. According to the November 2012 Central Coast Economic Forecast, San Luis Obispo County restaurant and hotel sales tax receipts increased 10.6% from 2011 to 2012. From September 2011 to September 2012, the leisure and hospitality sector added 1,100 jobs, a 7.3% increase.

Since the end of the historic recession, Paso Robles has experienced a slow but steady recovery with tourism continuing to be the largest growth sector, with the city projecting increases of at least 6.0% YOY for their fiscal year July 2013 – June 2014. Tourism Marketing is Paso Robles best ROI generating millions of dollars in transient occupancy tax (TOT), creating jobs, supporting local business and keeping Paso Robles economically viable. **The result:** TPRA TOT has increased annually over the last three fiscal years (FY)*, and is up +15.7% to date in this current FY, the highest increase during this time period since TPRA’s inception.

**TPRA FY is Feb. 1 – Jan. 31*

Importance of Brand Benchmarks

As a result of the May 2012 TPRA Board retreat discussion on metrics and reporting ROI, a countywide awareness study was commissioned by VSLOC to establish baseline levels of visitation and general awareness to San Luis Obispo County and its competitive set among its target geographic markets. Mental worked with VSLOC to develop a co-op segment available to tourism partners like the TPRA that was conducted by SMG with Carl Ribaudo as the lead. The survey launched in November 2012 using a panel survey and targeted completed surveys from 800 California respondents, including:

- 300 respondents from Los Angeles/Orange County
- 200 from the Central Valley, and
- 300 from the greater Bay Area

Key 2012 Brand Awareness Study Findings

- Central Valley respondents differ from those from Los Angeles/Orange County or San Francisco – they value destinations with beaches more, and those with wine country less. Central Valley more likely to visit Pismo and Morro Bay.
- On Average, 38% of the respondents from Central Valley, LA, and SF are not familiar with Paso Robles
- Overall, respondents gave “activities that I like to participate in” the highest ratings, followed by “to visit a specific town,” “good lodging prices,” “just to get away,” and “visiting Hearst Castle.”
- Advertising was most frequently recalled for San Simeon/Hearst Castle followed by Pismo Beach.
- By region, visitor respondents from the San Francisco Bay Area were much more likely to select Hearst Castle, while those from the Central Valley were more likely to select beaches and Los Angeles/Orange County respondents were most likely to cite wine growing/tasting.
- The most frequently-selected activities included wine tasting (35%), Hearst Castle (32%), food and wine events (30%) and dining/cuisine (24%).

Guest Blogger Program:

Mental created a guest blogger program for TravelPaso.com to help with consistent new idea generation, add valuable content for the end user and grow organic SEO. Mental established tourism partners and positioned them as experts in their fields through this editorial outlet. We encouraged them to be regular or semi-regular guest bloggers offering a venue for them to promote their brand on behalf of Paso Robles. This allowed us to keep up with rich new content, including photos and video with each post to help search engine spiders find the new content for SEO growth. The blogs were sharable and also posted to Facebook and Twitter to gain earned media. Sample guest blogs:

Website Analytics

By far the most important tools in a destination marketing tool kit are the website and mobile technology. Developing new content on a regular basis is the current employed key strategy for SEO management and user growth.

In this fast changing travel market, high functioning websites and mobile and social technology are key to growing market share. Currently, the TPRA Destination Manager and City of Paso Robles tourism and web support staff has been working with Civic Resource Group to develop a new website to

serve Paso Robles visitors. New features include user-friendly navigation, a new location to host media and trade resources, a multi-level partner login, responsive design and many other features. They anticipate the website to launch around the start of 2014. Below are the most recent stats from the current site.

Website

While the overall visitors and organic referrals are up, and mobile visits have more than doubled YOY for the third year in a row, the number of pages the use looks at is low, demonstrating that while we can get them to the desktop and the mobile site, more and more end-users are leaving the site because they are not finding what they are looking for. And finally, the lodging page views are difficult to track for the second year since changing the format in late 2011 to remove the lodging homepage and instead track searches.

Website Stats YOY

Report Year	Web Visits	Mobile Visits	Lodging Visits
Nov 09 - Oct 10	81,857	3,091	30,224
Nov 10 - Oct 11	90,105	10,230	28,304
Nov 11 - Oct 12	102,473	21,669	Approx. 25,000
Nov 12 – Oct 13	131,601	42,859	Approx. 25,000

Paso Robles iPhone App

In the fall of 2012, the TPRA board approved an iPhone App strategy presented by Mental Marketing involving a roll out plan that promotes Paso Robles to the tech savvy San Jose market. This program brought TPRA into the mobile/social world with the goal of reaching ever growing mobile and social regional, domestic and international travel markets. This app allows for frictionless social media sharing with TravelPaso.com's Facebook and Twitter pages.

Currently, ads running on Facebook and PRWCA are supporting the growth of downloads. To date, there have been 494 downloads of this program. Several things are at play here. Primarily, as the Android market is giving Apple a run for its money, TPRA's app is only offered to iPhone users, blocking out a huge portion of desired market audience. Secondly, minimal funds are being spent in the effort to grow this program. Mental recommends devising a new program strategy to further the success of this marketing tool.

TravelPaso.com Campaign Landing Page Content Development

To support promotions and to increase SEO, landing pages are a big part of the integrated branding strategy

employed by Mental. Here is a sampling of links from campaigns throughout the year. Below are 5 landing pages containing key messaging, contests, lists of hotel deals and reasons to come to Paso Robles.

Executive Summary:

- Paso Robles (Paso) is the world's best-kept wine destination secret; *a place of laid-back overachievers that love what they do and do what they love*.
