ADDITIONAL INFORMATION

Please provide any supplemental information to this application, including the specific reason you believe you should be appointed to this advisory body.

I believe that our city needs more affordable housing for first time home buyers and with quality locations to schools. Young families need the ability to purchase quality homes within a reasonable price structure that allows them to reach the American dream. Paso Robles, has a limited quantity of homes to purchase under 500,000 and therefore needs to provide homes in this price range. I also feel that I can assist on this committee by bringing the first time home buyers idealology to light.

Habitat for Humanity for SLO County had intended to build 9 affordable homes on Vine St. in Paso Robles. However, due to the high fees due to the City for the development combined with less public and private funding availability, HFHSLOCO discontinued the project. Because our decision was pivotal in starting this discussion, HFHSLOCO would like to have a position on the Advisory Committee to highlight the issues a non-profit affordable housing developer is facing because of the city's high fee structure.

As a former member of the Planning Commission, I have learned much about the housing situation in Paso Robles. I have a keen interest in economic development and the relationship of such to housing. I believe that Paso Robles can strengthen its long term growth by increasing commercial sector head-of-household jobs to complement the current agricultural and tourism industries. Housing is critically needed for job growth. I believe City government can help increase housing by developing creative solutions to this critical need.

In my prior employment, I worked with the under-housed and the homeless for 20 years. I feel I have a good understanding of their needs. Also being a current landlord has given me perspective of the other side of the issue. I also ran a HUD project in San Luis Obispo in the 1980's. As a homeowner in Paso Robles, I also feel affordable housing should be a part of community planning as to keep the homeless and under-housed to a reasonable population

I am currently purchasing and processing the Chandler Ranch property to create a Master-Planned Community, a majority of which is aimed at Work Force Housing. For a project of that scale to be successful, an economy that encourages businesses to locate in the area and provide jobs must exist. For businesses to locate in the area, housing must be affordable to their work force. Constructing housing, especially on a mass scale, needs to be economically feasible; therefore, part of the solution is for the constraints to housing to be eased. Being a Past President of the

I have a long history in the development of housing in Paso Robles and many other communities. I have worked extensively with both developers and agencies in the approval of housing projects and the construction of housing projects. I follow Paso Robles Policy development and consequences very closely and attend City Council and Planning Commission hearings on a regular basis. I understand many of the challenges that are facing the facilitation of workforce housing in our community and recognize that it is imperative to have a supply of appropriate housing to support the healthy economic development of Paso Robles.

I have been resident of this city since 1993, own two rental housing properties in Paso Robles although presently living in Templeton and running my Gas Station business in San Miguel known as San Miguel Chevron since then. I have seen Paso doubled in population since then and housing affordability come down significantly which being a matter of concern makes me think to sit in this committee and try to do something positive for my city if possible.

As a Trustee of the largest employer in Paso Robles, I see first hand the challenges all employers face in attracting new employees to Paso Robles. As a business consultant and REALTOR, I recognize that the price of homes especially new homes in Paso Robles are moving beyond the means of most families. There are many factors as to why, not just impact fees. In my capacity as Vice-Chair of the C.A.R. Housing Affordability Fund, I oversaw approval of grants awarded to communities who worked in unique ways to restore the American dream of home ownership. The dream must be balanced against both current and future needs and constraints. I will work to build consensus on the best way forward.

I retired 4 years ago after a 30+ year banking career. In this capacity I designed and set up streamlined commercial loan processes for several major banks. My last assignment before retiring was to manage a commercial loan center in Southern California which decisioned loans up to \$20 million statewide. Here in Paso Robles I am enjoying fund raising for the library and think that my prior experience with commercial loans will enable me to understand both sides of the issue on the table and to assist in making the best decision for both developers and the City.
