

TO: Thomas Frutchey, City Manager
FROM: Dick McKinley, Public Works Director
SUBJECT: Airport Commission – Establishment and Bylaws
DATE: July 19, 2016

Needs: For the City Council to approve Resolution No. 16-XX which adopts the Bylaws of the Airport Commission. For the City Council to approve Ordinance No. _____ N.S. which establishes an Airport Commission and provides its composition and authorities for a more involved role in the governance of the Municipal Airport, dissolves the Airport Advisory Committee, and calls for the establishment of bylaws by resolution.

- Facts:
1. On May 7, 1973, the County of San Luis Obispo transferred ownership of the Paso Robles/San Luis Obispo County Airport to the City of El Paso de Robles. The City then adopted a series of resolutions establishing the required governing authorities for operation of said airport, including renaming it to the Paso Robles Municipal Airport and the establishment of an Airport Advisory Committee to advise the City Council in matters of airport operation and long-term planning.
 2. The Airport Advisory Committee has served effectively in their assigned duties and function to foster airport development.
 3. In their continuing effort to provide for more effective and responsive governance of the airport and related matters, the committee reviewed a number of possible alternatives to the organization currently in place.
 4. After significant discussion, the Committee reached a consensus to recommend formation of an Airport Commission, together with a Governance Matrix to outline specific duties and responsibilities.
 5. On May 26, 2016, the Airport Advisory Committee met in a workshop session with the City Council to review the governance concept and the recommended organizational structure.
 6. The City Council directed that the concept be finalized and presented for formal Council action.

Analysis &
Conclusion: The recommended governance concept proposes the creation of an Airport Commission. This commission would serve to more effectively streamline the routine decision-making processes of airport operations and longer-term planning and development. The expertise and technical experience of appointed commissioners would provide additional resource to further support the efforts to promote and develop the airport facility. This addition to the Municipal Code is a necessary procedure to validate and document the proposed action. The

associated Bylaws document includes the Governance Matrix, which has been developed to more clearly identify the roles and authorities of City staff and the commission as they work collaboratively to accomplish needed tasks.

EXHIBIT A
CODE OF ETHICS

PREAMBLE

The residents and businesses of Paso Robles are entitled to have fair, ethical, and accountable local government. Such a government requires that:

- ▶ Public officials comply with both the letter and spirit of the laws and policies affecting operations of the government;
- ▶ Public officials be independent, impartial, and fair in their judgment and actions;
- ▶ Public office be used for the public good, not for personal gain; and
- ▶ Public deliberations and processes be conducted openly, unless legally confidential, in an atmosphere of respect and civility.

To this end, the Paso Robles City Council has adopted this Code of Ethics to encourage public confidence in the integrity of local government and its operation.

PUBLIC INTEREST

Advisory Body Members will work for the common good of the people of Paso Robles and not for any private or personal interest, and they will endeavor to treat all persons, claims, and transactions in a fair and equitable manner.

Advisory Body Members shall comply with the laws of the nation, the State of California, and the City in the performance of their public duties.

CONDUCT

Advisory Body Members are expected to exercise a duty of care in carrying out their responsibilities, which includes devoting sufficient time to carefully review and fully understand the matters that come before them.

Advisory Body Members shall act with civility towards all and shall refrain from abusive conduct, personal charges, or verbal attacks upon the character or motives of others.

Advisory Body Members shall perform their duties in accordance with the processes and rules of order established by the City Council.

Advisory Body Members shall inform themselves on public issues; listen attentively to public discussions before the body; and focus on the business at hand.

Advisory Body Members shall base their decisions on the merits and substance of the matter at hand.

Advisory Body Members shall publicly share substantive information that is relevant to a matter under consideration that they may have received from sources outside of the public decision-making process.

CONFLICT OF INTEREST³

Advisory Body Members shall not use their official positions to influence government decisions in which they have a financial interest, or where they have an organizational responsibility or personal relationship that would present a conflict of interest under applicable State law.

In accordance with the law, members shall timely file with the City Clerk a Statement of Economic Interests (Form 700) and, if they have a conflict of interest regarding a particular decision, refrain from participating in that decision, unless otherwise permitted by law.¹ Advisory Body Members shall participate biennially in Ethics Training seminars as required by state law.

Advisory Body Members shall not take advantage of services or opportunities for personal gain, by virtue of their public office, that are not available to the public in general. They shall refrain from accepting gifts, favors, or promises of future benefits that might compromise their independence of judgment or action or give the appearance of being compromised.

Advisory Body Members shall respect and preserve the confidentiality of information provided to them concerning the confidential matters of the City. They shall neither disclose confidential information without proper legal authorization, nor use such information to advance their personal, financial, or other private interests.

Advisory Body Members shall not use public resources (such as City equipment, staff and facilities) not available to the public for private gain or personal purposes.

No Advisory Body Member shall appear before the body on which that member serves to advocate on behalf of or to represent the private interests of third parties.

Advisory Body Members shall represent the official policies and positions of the Advisory Body if authorized by the Advisory Body. When presenting their personal opinions and positions, members shall explicitly state they are doing so in their personal capacity, and not as a representative of the Advisory Body or the City.

Advisory Body Members shall refrain from using their position to unduly influence the deliberations or decisions of City commissions, boards or committees.

POLICY ROLE

Advisory Body Members shall respect and adhere to the Council-Manager structure of Paso Robles City government as provided in State law and the Municipal Code.

Advisory Body Members shall support the maintenance of a positive and constructive environment for residents, businesses, and City employees.

COMPLIANCE & ENFORCEMENT

Advisory Body Members themselves are primarily responsible for ensuring they understand and meet the ethical standards set forth herein.

³ State laws governing conflicts of interest are written to ensure that actions are taken in the public interest. These laws are very complex and highly fact dependent. Advisory Board Members should notify the City Manager if they have a question about the conflict of interest rules or should consult with the Fair Political Practices Commission for guidance in advance.

Airport Governance - Notes:

1. FAA requires the Airport Master Plan document to be adopted by City Council. Additional planning documents are reviewed and recommended by the Commission to the appropriate governing bodies.
2. The Commission reviews, amends and approves appropriate airport regulations. Regulations are then implemented under the Airport Manager authority granted in the City Ordinance.
3. Initial planning of construction projects occurs under the Capital Improvement planning process. The specifics of project scope and design are reviewed and recommended by the Commission. The City Council is required to accept the grant funding and execute associated documents and also approve construction contracts. Various engineering and actual project management functions that are beyond City staff capabilities and resources are assigned to contract engineers and inspectors to function on behalf of the City.
4. Airport promotion and advertising is a Commission function to review and approve. Staff is then responsible to implement programs as resources allow.
5. The Lease Policy is drafted and reviewed by the Commission, with their recommendation of final adoption to the City Council. Actual lease proposals are received by City staff where deal points and agreements are drafted. The Commission reviews proposed agreements and makes recommendations, but City Council must approve and execute the lease agreement.
6. Minor modifications to existing lease agreements can be drafted and executed by staff per the authority granted in the lease agreement. Major modifications, after review by staff and the Commission require City Council approval to execute the required documents.
7. Small events requiring little or no modification to routine operations can be approved by staff if all insurance and other permit requirements are met. Events requiring minor changes to traffic pattern and other operations procedures require Commission approval. Events requiring major changes, including airport closure, contractual agreements with the event organizers (e.g., an airshow), or expenditure of City/Airport funds require City Council approval.
8. City/Airport staff is expected to handle all routine operations functions on a daily basis. Updates are to be provided to the Commission on items that affect the long-term operation of the Airport. Airport Regulations identify an appeal process by which decisions and/or enforcement action by staff may be challenged before the Commission if requested.
9. All actions by the Commission – whether recommendation or approval – require staff implementation – either directly or via report to the City Council or other outside agency. Staff is also responsible to ensure that each item complies with applicable legal, fiscal, and/or City procedural policies and mandates.
10. The Commission may review and recommend airport staffing modifications, but actual personnel administration follows adopted City procedures.
11. All actions by the Commission are subject to review by and/or appeal to the City Council.
12. Professional Project Management/General Contract for projects above established purchasing thresholds.
