## ADDITIONAL INFORMATION

*Please provide any supplemental information to this application, including the specific reason you believe you should be appointed to this advisory body.*

I'm a aircraft owner and have been involved in aviation as a hobby for over 30 years. I have about Three Thousand hours piloting time in a variety of aircraft types including a few hundred on floats. Over the years I have spent much of my time in hangers on various airports while working on aircraft restoration and rebuild projects.

In my many years of experience in aviation I have seen many airport issues raised and resolved. I have also seen much attrition in general aviation activity due to a variety reasons including over regulation. It is my hope with the formation of this new airport commission the airport will take a more user friendly direction. My interest in serving on this commission would be to help guide it in that direction. I'm especially interested in seeing lease reform in the smaller general aviation hangar area and more leaseholds available to individual aircraft owners.

I relocated to the central coastal area from the Redding area nearly Ten years ago. Both of my airplanes still reside in my Red Bluff hangar. I would love to have one or both of them hear in Paso Robles. That will not be possible until the hangar lease situation changes.

Through my educational business background, training and 14 years of experience helping to run and manage our family business which has been located on the Airport for nearly 40 years, I believe I would be a good resource to the City's Commission because I have a vested interest in seeing the Airport gain new heights in excellence not only for the aviation community of which I am a part but also the eagerness to attract new opportunities for commercial growth and employment.

Owned and operated the largest FBO at KPRB in the 1980's and built largest FBO hangar on the airport. I was instrumental in getting the last scheduled air carrier service to Paso Airport. I have negotiated at least 3 major leases at Paso Robles airport. I have a respected reputation in the larger aviation community. I have watched and financially participated in the growth of this airport over the last 35 years. Lastly, even though I disagreed with the formation of this commission I have no personal agenda or aspirations. I just want to insure the continued success of this airport, the businesses located on it, and that the aviation aspect be allowed to flourish.
