## ADDITIONAL INFORMATION

Please provide any supplemental information to this application, including the specific reason you believe you should be appointed to this advisory body.

I have flown out of PRB Airport and hangered an airplane here since 1976. I am an airplane enthusiast, have scratch built two airplanes, and am concerned that the aviation uses of the airport property are being minimize. I believe that encouraging more pro-aviation decisions would actually benefit both aviation and business interests.

I am a Private Pilot and own a Cessna 182/RG hangered at Paso Robles Municipal Airport. I am very interested in the current uses and potential future opportunities of this great City resource. It serves not only our citizens, but also visitors to Paso Robles who help strengthen our economic health and vitality. Our thoughtful oversight of maintenance and operating budgets with mindful consideration of both short term and long range strategic planning for the airport will allow the citizens of Paso Robles to receive the best possible benefit from this very important resource. I serve as the Safety Officer for the Squadron 40, Group 1 of the Civil Air Patrol and I am an advocate for aviation safety and proper maintenance of facilities and resources. Strategic planning is critical to assure efficient and timely implementation of improvements and technological and regulatory upgrades. My background as an electrical engineer allows me to provide the City with insight on not only technical changes for the aviation industry, but also other facility operational systems. I am very excited about the possibility of being appointed to the position of Airport Commissioner and if selected, I will dedicate by energy and time to the position.

### **Additional Information**

Aviation: I own a hanger and a Lancair Aircraft which has been at KPRB for 10 years. I have been a pilot for 40 years; have a Private Pilot/instrument rating, an Airframe/Power Plant license for maintaining my aircraft. I have General Aviation flying/airport experience in the US (CA, OR, VA), Canada, Australia, Africa/Kenya, and Europe. I can bring a fairly broad perspective on aviation and airport operation to the Commission. I have in the worked for local, Federal and State Governments and; as an aircraft builder and pilot, I am familiar with working with Federal agencies like the FAA.

Community/Economic Development: I have experience with key facets of economic development (i.e. land/resources, labor, and capital). I have provided leadership to develop a project to estimate and improve the economic impact of the Airport in Paso Robles. While my economic development work focused on labor/employment policy I have been directly involved with other aspects of economic development including valuation, development, sale, and even privatization of public assets. I recognize that the Airport is an important gateway to Paso Robles and can contribute to the overall economic and social development of the City. I am a member of the Chamber of Commerce, familiar with the role of the SLO Economic Vitality Corporation and have met with both related to the topic of the Airport in economic development of our community.

Project Development and Management. I have successful experience at the local, State, National and International levels in the governance, design, financing, management, procurement, and evaluation of public projects and organizations. This includes writing governing and regulatory policies, serving on governing and advisory boards, and acting as a senior staff on a governing board. I have also worked on the “other side” of public projects/agencies as an implementing staffer, consultant, and company. I have private sector experience with the Ford Motor Company as service representative, and as the Assistant Manager of Installation Planning for the Northern California and Nevada region of Western Electric. I am currently the CEO of my international consulting company.
