

# Council Agenda Report

**From:** Freda Berman, Maintenance Superintendent

**Subject:** Proceedings to Initiate the Annual Levy of Landscape & Lighting Maintenance District No. 1 and Drainage Maintenance District 2008-1 for Fiscal Year 2017/2018.

**Date:** April 18, 2017

---

## Facts

1. The City Council formed a Landscape & Lighting Assessment District (L&L District) in 1989 for the maintenance of streetlights, hardscapes, detention basins, parkways, median islands, open space, slopes and other appurtenant facilities related to the L&L District.
2. The City began assessing parcels within the District in 1993.
3. The L&L District serves over 4,000 lots, organized into 19 zones and 135 designated sub areas.
4. In FY 2007-8 the City Council formed a Drainage Maintenance District for the maintenance of drainage improvements associated with the Ashwood Place (PR03-0338) Subdivision. The Drainage District requires the same annual levy process as the L&L District.
5. The annual levy is a two-step process. The first step is in three parts: (1) Adopt a Resolution to initiate the annual levy proceedings; (2) Adopt a Resolution to preliminarily approve the Engineer's Report; and (3) Adopt of Resolution scheduling a Public Hearing. The second and final step is conduct a Public Hearing to consider approval of the final Engineer's Report and authorize the levy and the collection of assessments.

## Options

1. Adopt the following:
  - a. Resolution No. 17-XXX Initiating Proceedings for the Annual Levy for the Maintenance of Landscape & Lighting District facilities;
  - b. Resolution No. 17-XXX Initiating Proceeding for the Annual Levy for the Maintenance of Drainage District facilities;
  - c. Resolution No. 17-XXX Adopting the Draft Preliminary Landscape and Lighting District Engineer's Levy Report as presented and making it available to the public for review and comment;
  - d. Resolution No. 17-XXX Adopting the Draft Preliminary Drainage District Engineer's Levy Report as presented and making it available to the public for review and comment;
  - e. Resolution No. 17-XXX Declaring the Intent to Levy for Maintenance of the Landscape and Lighting District facilities and cause a Notice to be published for a Public Hearing to be scheduled May 16, 2017;
  - f. Resolution No. 17-XXX declaring the Intent to Levy for Maintenance of the Drainage Maintenance District facilities and cause a Notice to be published for a Public Hearing to be scheduled May 16, 2017.
2. Amend, modify, or reject the above option(s).

## Analysis and Conclusions

The L&L District provides a funding mechanism to deliver public street lighting, landscaping, and related facilities associated with various developments in the City. Economy of scale is achieved by combining the efforts for all maintenance services within separate geographic locations (individual "Sub-areas" or groups of Sub-areas known as "Zones"). Landscape maintenance contractors contract directly with the City. L&L District funding is determined annually. Each sub-area's costs are determined based upon the landscape, lighting, and architectural amenities associated with a tract, and the costs associated with the maintenance of those improvements. Costs are apportioned to the parcels within each sub-area based on an equity-based

formula. Each sub- area is essentially assessed for only those maintenance services and activities funded by property owners within that particular sub-area.

Proposition 218: The flexibility to manage L&L Districts was changed by Proposition 218. Initially, Proposition 218 limited the maximum annual L&L District assessments to the maximum historical sub-area levy amounts. For sub-areas in existence prior to Proposition 218, most had maximum amounts that were quickly eclipsed simply due to cost inflation. However, Proposition 218 also provides that a new maximum assessment or an increase to the existing assessment can be established by a property owner majority protest ballot proceeding, in which property owners elect to increase the maximum allowable levy.

For those sub-areas that a new or increased assessment has been proposed, but not approved by the property owners (in FY 2003-04 and FY 2006-07), a reduction in service was instituted beginning September 1, 2006 to make the level of service commensurate with the assessment revenues available based on each sub-area's approved maximum assessment rate.

Drainage Maintenance District No. 2008-1: The Drainage Maintenance District provides the necessary annual funding to service and maintain drainage improvements associated with the Ashwood Place (PR03-0338) Subdivision. It was determined that the improvements are required and necessary for the orderly development of the lots and parcels of land within the Subdivision and that the improvements and services will enhance and protect those properties as well as ensure the ecological and environmental integrity of the drainage improvements (creek area).

No balloting of either the L&L District or the Drainage Maintenance District is proposed for Fiscal Year 2017-18.

### **Fiscal Impact**

Maintenance of the L&L District and Drainage Maintenance District is funded through annual assessments.

Costs for the preparation of the Levy Reports and filing with San Luis Obispo County is funded from the same District Assessments.

### **Recommendation**

Approve Resolutions #17-xx1 through #17-xx6 to initiate proceedings for the annual levy of the Landscape and Lighting Maintenance District No. 1 and Drainage Maintenance District 2008-1 for Fiscal Year 2017-18. The resolutions approve the preliminary engineer's report, declare the City's intention to levy assessments in order to maintain the landscaping and related improvements, and take other actions to initiate the proceedings.

### **Attachments**

1. Resolutions (6 ea.)
2. Preliminary Engineer's Reports for Landscape and Lighting Maintenance District No. 1 and Drainage Maintenance District No. 2008-1 for Fiscal Year 2017-18. (Full report provided to City Council and available for download at <http://bit.ly/LLD-DMD-Paso>)

RESOLUTION NO. 17-XXX

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES  
INITIATING PROCEEDINGS FOR THE ANNUAL LEVY OF ASSESSMENTS FOR THE EL  
PASO DE ROBLES LANDSCAPE AND LIGHTING MAINTENANCE DISTRICT NO. 1 FOR  
FISCAL YEAR 2017/2018 PURSUANT TO THE PROVISIONS OF PART 2 OF DIVISION 15 OF  
THE CALIFORNIA STREETS AND HIGHWAYS CODE**

WHEREAS, the City Council has, by previous Resolutions, formed the El Paso De Robles Landscape and Lighting Maintenance District No. 1 (hereafter referred to as "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act") that provides for levy and collection of assessments by the County of San Luis Obispo for District maintenance services; and

WHEREAS, the improvements within the District include the maintenance and operation of and the furnishing of services and materials for street lighting facilities, fencing, detention basins, open space areas, landscaping, irrigation systems, bike paths, pedestrian pathways, slope maintenance, graffiti abatement, local parks, entry monuments, and landscaping which includes trees, shrubs, grass, and other ornamental vegetation, and appurtenant facilities, including irrigation systems and drainage devices; and

WHEREAS, the annual Engineer's Report describes all new improvements or substantial changes in existing improvements including those improvements to be maintained within the proposed annexations; and

WHEREAS, assessments pay for the maintenance and services of lighting facilities, landscaping, and all appurtenant facilities and operations related thereto; and

WHEREAS, the City Council proposes to establish the levy and collection of assessments by the County on behalf of the City of El Paso De Robles to pay for these services.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. All of the above recitals are true and correct and incorporated herein by reference.

Section 2. The City Council hereby orders Willdan Financial Services to prepare the Engineer's Report concerning the levy of assessments for the District in accordance with *Chapter 3, Section 22622* of the Act.

RESOLUTION NO. 17-XXX

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES  
INITIATING PROCEEDINGS FOR THE ANNUAL LEVY OF ASSESSMENTS FOR  
DRAINAGE MAINTENANCE DISTRICT NO. 2008-1 FOR FISCAL YEAR 2017/2018**

WHEREAS, the City Council pursuant to the provisions of the *Benefit Assessment Act of 1982, Chapter 6.4 of the California Government Code, beginning with Section 54703* (hereafter referred to as the "1982 Act") formed an assessment district to be designated as Drainage Maintenance District No. 2008-1 (hereafter referred to as the "District"), for the purpose of funding the ongoing operation, maintenance and servicing of the drainage improvements (creek area) within and adjacent to the District and to levy and collect annual assessments related thereto; and

WHEREAS, the 1982 Act provides for the formation of such an assessment district pursuant to *Article 3 Section 54710*, and provides for the levy and collection of assessments by the County of San Luis Obispo on behalf to the City of El Paso de Robles pursuant to *Article 4 Section 54718*; and

WHEREAS, servicing the drainage improvements benefits the properties within the District and is required for the development of such properties to their full and best use; and

WHEREAS, the territory within Drainage Maintenance District No. 2008-1 consists of lots and parcels of land located in the planned residential development known as PR03-0338; and

WHEREAS, the District improvements include the ongoing operation, administration, maintenance and servicing of the drainage improvements authorized pursuant to the 1982 Act that were installed as part of property development and associated with the District; and

WHEREAS, District improvements may include, but are not limited to all materials, equipment, labor, and incidental expenses deemed necessary to keep these improvements in satisfactory condition as well as the collection of assessments for the periodic service activities, repair, or refurbishments of the improvements; and

WHEREAS, Willdan Financial Services, as the Engineer of Work, assists with the administration of the District, the establishment of annual assessments, and preparation and filing of an Engineer's Report with the City Clerk in accordance with the 1982 Act; and in accordance with the requirements of the California Constitution, Articles XIIC and XIID.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. All of the above recitals are true and correct and incorporated herein by reference.

Section 2. The City Council hereby orders Willdan Financial Services to prepare and file an Engineer's Annual Levy Report concerning the levy of assessments for properties within the District as specified by *Article 4 Section 54716* of the 1982 Act.

RESOLUTION NO. 17-XXX

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES FOR PRELIMINARY APPROVAL OF THE ANNUAL ENGINEER'S REPORT FOR THE EL PASO DE ROBLES LANDSCAPE AND LIGHTING MAINTENANCE DISTRICT NO. 1 FOR FISCAL YEAR 2017/2018**

WHEREAS, the City Council has, by previous Resolutions, ordered the preparation of an Engineer's Report (hereafter referred to as the "Report") for the district known and designated as the El Paso De Robles Landscape and Lighting Maintenance District No. 1 (hereafter referred to as the "District") pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act"); and

WHEREAS, the Report consists of a description of improvements, annual budget (costs and expenses of services, operations and maintenance), method of apportionment detailing the method of calculating each parcel's proportional special benefits and annual assessment, the District Roll containing the proposed assessment for each parcel within the District for Fiscal Year 2017/2018 and the proposed assessment amounts for each of the existing District Zones and Sub Areas; and

WHEREAS, the District and the associated assessments are in compliance with the provisions of California Constitution Article XIID; and

WHEREAS, the City Council has now been presented with the Report as required by *Chapter 1, Article 4, Section 22566* of said Act; and

WHEREAS, the City Council has examined and reviewed the Report as presented and is preliminarily satisfied with the District, each of the budget items and documents as set forth therein and is satisfied on a preliminary basis that the proposed assessments have been spread in accordance with the benefits received from the improvements, operation, maintenance, and services to be performed within each benefit zone as set forth in said Report.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. All of the above recitals are true and correct and incorporated herein by reference.

Section 2. The Report is hereby approved on a preliminary basis and ordered to be filed in the Office of the City Clerk as a permanent record and to remain open to public inspection.

RESOLUTION NO. 17-XXX

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES  
DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS FOR THE EL PASO  
DE ROBLES LANDSCAPE AND LIGHTING MAINTENANCE DISTRICT NO. 1 FOR  
FISCAL YEAR 2017/2018 AND TO APPOINT A TIME AND PLACE FOR THE PUBLIC  
HEARING ON THESE MATTERS**

WHEREAS, the City Council has, by previous Resolutions, formed the El Paso De Robles Landscape and Lighting Maintenance District No. 1 (hereafter referred to as the "District") and initiated proceedings for Fiscal Year 2017/2018 pursuant to the provisions of the *Landscaping and Lighting Act of 1972, Part 2 of Division 15 of the Streets and Highways Code of California, beginning with Section 22500* (hereafter referred to as the "Act") that provides for the levy and collection of assessments by the County of San Luis Obispo for the City of El Paso De Robles to pay the maintenance and services of all improvements and facilities related thereto; and

WHEREAS, the District and the associated assessments are in compliance with the provisions of California Constitution Article XIID; and

WHEREAS, the City Council has retained Willdan Financial Services to prepare and file an Engineer's Report with the City Clerk for the purposes of establishing ongoing annual assessments in accordance with the Act and the provisions of the California Constitution, Article XIID.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. All of the above recitals are true and correct and incorporated herein by reference.

Section 2. Intention: The City Council hereby declares that it is its intention to seek the levy of annual assessments for Fiscal Year 2017/2018 over and including the land within the District boundary to pay the costs of the operation, maintenance, and servicing of lighting, landscaping, and appurtenant facilities and operations related thereto, pursuant to Chapter 3, Section 22624 of the Act, and the California Constitution, Article XIID

Section 3. Description of Improvements and Any Substantial Changes Proposed:  
The improvements within the District include: the maintenance and operation of and the furnishing of services and materials for street lighting facilities, fencing, detention basins, open space areas, landscaping, irrigation systems, bike paths, pedestrian pathways, slope maintenance, graffiti abatement, local parks, entry monuments, landscaping which includes trees, shrubs, grass, and other ornamental vegetation, and appurtenant facilities, including irrigation systems and drainage devices within the District. The Engineer's Report describes all new improvements or substantial changes in existing improvements.

Section 4. Boundaries and Designation: The boundaries of the District are described as the boundaries previously defined in the formation documents of the original District and the annexation documents for all subsequent annexations. The District is designated as "El Paso de Robles Landscape and Lighting Maintenance District No. 1."

Section 5. Public Hearing: The City Council hereby declares its intention to conduct a Public Hearing concerning the levy of the fiscal year 2017/2018 assessments for the District in accordance with Chapter 3, Section 22626 of the Act.

Section 6. Notice: Pursuant to sections 22626, 22552, and 22553 of the 1972 Act and 6061 of the Government Code, the City Clerk shall give notice of the time and place of the Public Hearing to all property owners within the District by causing the publishing of this Resolution in the El Paso De Robles Press one time not less than ten (10) days before the date of the public hearing and by posting a copy of this Resolution on the official bulletin board customarily used by the City Council for the posting of notices.

Section 7. Time of Public Hearing: Notice is hereby given that a public hearing will be held by the City Council of the City of El Paso De Robles on Tuesday, May 16, 2017 at 6:30 p.m. and/or as soon thereafter as feasible in the Regular Meeting Chambers located within the Paso Robles City Hall Conference Center located at 1000 Spring Street, El Paso De Robles.

Section 8. Other Actions: The City Council and such employees of the District as are appropriate, are authorized and directed to execute such other documents and take such further action as shall be consistent with the intent and purpose of this Resolution.

RESOLUTION NO. 17-XXX

**RESOLUTION OF THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES  
DECLARING ITS INTENTION TO LEVY ANNUAL ASSESSMENTS WITHIN DRAINAGE  
MAINTENANCE DISTRICT NO. 2008-1 IN FISCAL YEAR 2017/2018 AND TO APPOINT A  
TIME AND PLACE FOR THE PUBLIC HEARING ON THESE MATTERS**

WHEREAS, the City Council pursuant to the provisions of the Benefit Assessment Act of 1982, Chapter 6.4 of the California Government Code, beginning with Section 54703 (hereafter referred to as the "1982 Act") did by previous Resolution approve the levy and collection of annual assessments to pay for the operation, maintenance and servicing of the drainage improvements for the assessment district designated as "Drainage Maintenance District No. 2008-1" (hereafter referred to as the "District"); and

WHEREAS, the Engineer selected by the City Council has prepared and filed with the City Clerk a Report in connection with the proposed District, and the levy of assessments for Fiscal Year 2017/2018 (July 1, 2017 and ending June 30, 2018) in accordance with *Chapter 1, Article 4* of the 1982 Act and in accordance with the requirements of the *California Constitution, Articles XIIC and XIID*, and the City Council did by previous Resolution preliminarily approve such Report.

NOW, THEREFORE, THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES DOES HEREBY RESOLVE AS FOLLOWS:

Section 1. All of the above recitals are true and correct and incorporated herein by reference.

Section 2. The City Council hereby declares its intention to seek the annual levy of the District pursuant to the 1982 Act, over and including the land within the District boundary, and to levy and collect special benefit assessments on parcels of land within the District to pay for the costs and expenses associated with the operation, maintenance, repair and servicing of drainage improvements.

Section 3. The District improvements include the ongoing operation, administration, maintenance and servicing of the drainage improvements authorized pursuant to the 1982 Act that were installed as part of property development and associated with the District. Said improvements may include, but are not limited to all materials, equipment, labor, and incidental expenses deemed necessary to keep these improvements in satisfactory condition as well as the collection of assessment installments for the periodic service activities, repair, or refurbishments of the improvements. The Engineer's Report, as ordered by previous Resolution, provides a full and complete description of the improvements within the District.

Section 4. The proposed territory within Drainage Maintenance District No. 2008-1 consists of lots and parcels of land located in the planned residential development known as PR03-0338.

Section 5. The proposed assessments for the District are outlined in the Engineer's Report. The Report details the proposed assessments necessary to provide for the annual operation, administration, services, and maintenance of the improvements described in Section 2 of this Resolution.

Section 6. Notice is hereby given that a public hearing will be held by the City Council of the City of El Paso de Robles on Tuesday, May 16<sup>th</sup>, 2017 at 6:30 p.m. and/or as soon thereafter as feasible in the Regular Meeting Chambers located within the Paso Robles City Hall Conference Center located at 1000 Spring Street, El Paso de Robles, in accordance with *Government Code, Section 53753* and *California Constitution, Article XIID, Section 4(e)*. The City shall give notice of the time and place of the Public Hearing by posting a copy of this resolution on the official bulletin board customarily used by the Council for the posting of notices and by publishing this resolution in a local newspaper pursuant to Government Code

Section 6066 as outlined in the 1982 Act. At the Public Hearing, interested persons shall be permitted to present written and/or oral testimony.

## I. INTRODUCTION

---

Pursuant to the provisions of the *Benefit Assessment Act of 1982, being Chapter 6.4 of the California Government Code, commencing with Section 54703* (hereafter referred to as the “1982 Act”), and in compliance with the substantive and procedural requirements of the *California State Constitution Article XIID* (hereafter referred to as the “California Constitution”), the City Council of the City of Paso Robles, County of San Luis Obispo, State of California (hereafter referred to as “City”), previously formed and levied and collected annual assessments for the district designated as:

### ***Drainage Maintenance District No. 2008-1***

(Hereafter referred to as “District”).

The District provides the necessary annual funding to service and maintain drainage improvements associated with the planned residential development designated as parcel map PR03-0338 — Ashwood Place (hereafter referred to as the “PR03-0338 Subdivision”). It has been determined that the improvements are required and necessary for the orderly development of the lots and parcels of land within the PR03-0338 Subdivision and that the improvements and services to be provide will enhance and protect those properties as well as ensure the ecological and environmental integrity of the drainage improvements (creek area). This Engineer’s Report (hereafter referred to as “Report”) has been prepared in connection with the improvements to be provided and the levy and collection of annual assessments related thereto, as required pursuant to *Section 54716* of the 1982 Act.

The City Council previously formed the District, and continues to levy and collect annual assessments on the County tax rolls upon properties within the District to provide an ongoing funding source for the continued operation and maintenance of the drainage improvements (creek area) that have been identified as necessary and essential requirements for the orderly development of the properties within the District, consistent with the development requirements for the PR03-0338 Subdivision and applicable portions of the City General Plan. This Report describes the District, the improvements, and the assessments levied against properties in connection with the special benefits that the properties receive from the maintenance and servicing of the improvements.

Each fiscal year, utilizing the historical and estimated costs to maintain the improvements that provide special benefit to properties within the District, the City establishes the District’s budgets and assessments (within the limits of the approved maximum assessments). The structure of the District (organization), the improvements, the method of apportionment, and assessments described herein are based on current property development plans for the PR03-0338 Subdivision and specifications associated with that planned development; and by reference these plans and specifications are made part of this Report.

The word “parcel,” for the purposes of this Report, refers to an individual property assigned its own Assessor’s Parcel Number (APN) by the San Luis Obispo County Assessor’s Office. The San Luis Obispo County Auditor-Controller uses Assessor’s Parcel Numbers and specific Fund Numbers to identify properties to be assessed on the tax roll for the special benefit assessments.

As part of this District formation in Fiscal Year 2008/2009, the City conducted a property owner protest ballot proceeding for the levy of new assessments pursuant to the provisions of the California Constitution, Article XIID Section 4. In conjunction with this ballot proceeding, the City Council conducted a noticed public hearing to consider public testimonies, comments and written protests regarding the formation of the District and levy of assessments. Upon conclusion of the public hearing, property owner protest ballots were opened and tabulated to determine whether majority protest exists (ballots were weighted based on the calculated proportional assessment amount for each benefiting parcel). Tabulation of the ballots indicated that majority protest does not exist for the assessments and the assessment range formula presented and described herein, the City Council approved the Report (as submitted or amended), ordered the formation of the District, and approved the levy and collection of assessments.

Each subsequent fiscal year, a Report is prepared and presented to the City Council describing any changes to the improvements, the services, the annual budget and assessments for that fiscal year, and the City Council holds a noticed public hearing regarding these matters prior to approving and ordering the levy of assessments.

## ***II. PLANS AND SPECIFICATIONS***

---

### **A. DESCRIPTION OF THE DISTRICT**

At the time of the preparation of this Report, the territory of the District is identified by the County of San Luis Obispo as assessor’s parcel number 009-750-007, which encompasses an area of approximately 2.5 acres. This parcel is currently identified by the County Assessor’s Office with one single-family residential unit on the property, but is to be subdivided to include an additional three single-family residential properties (total of four parcels) as part of the planned PR03-0338 Subdivision.

The District is situated in the southeastern portion of the City of Paso Robles and is located on the north side of Ashwood Place:

- East of Beechwood Drive;
- West of Oriole Way;
- South of Larkfield Place; and
- Generally, north of Meadowlark Road.

## **B. DESCRIPTION OF IMPROVEMENTS AND SERVICES**

The District funds the activities necessary to maintain and service specific drainage improvements associated with the properties in the District, namely the existing creek area associated with the PR03-0338 Subdivision. The creek area within the District is one segment of the overall drainage system, which provides storm water runoff control for the properties in the area including those within this District. This creek provides and controls the flow and drainage of excess irrigation water and storm water runoff from adjacent properties acting both as a channel way and bio-filter. This drainage facility originates north of this planned development and the water flows across the territory of the District southward to adjacent properties and ultimately to a control basin east of Oriole Way. The maintenance and operation of these drainage improvements may include but are not limited to the materials, equipment, labor, and incidental expenses necessary to keep these improvements in satisfactory condition, ensuring the functionality of the improvements, but also the ecological and environmental integrity of the creek.

As generally defined by the Benefit Assessment Act of 1982 and applicable to this District, the City may impose a benefit assessment to finance the maintenance, servicing and operation cost of drainage and flood control improvements. In addition to imposing a benefit assessment for the annual maintenance and operation of the improvements, the City may also authorize an assessment or utilize existing assessment revenues to finance the installation, construction or replacement of drainage and flood control facilities. While such activities are permitted under the 1982 Act and assessment revenues may be utilized for such activities, the budget and assessments for this District have been established to address annual maintenance and periodic repairs and services that are normally required to ensue the proper flow of storm water runoff as well as the ecological and environmental integrity of the drainage improvements. Since most major rehabilitation or reconstruction projects for such improvements would typically result from unforeseen damages or area flooding in excess of what is reasonably anticipated, the extent and cost of such projects are not easily predicted and it has been determined that it is not reasonable or appropriate to accumulate additional funds for such possibilities. If such funding becomes necessary, the City may present a new or increased assessment to the property owners to support such major rehabilitation or reconstruction projects.

The District budget and assessments identified in this Report are based on an estimate of the annual and periodic costs to service and maintain the creek area within the boundaries of the District as well as offsite areas immediately adjacent to the District that are necessary to ensure the proper flow of water and the ecological integrity of the drainage improvements within the District and determined to be of special benefit to the properties therein including but not limited to:

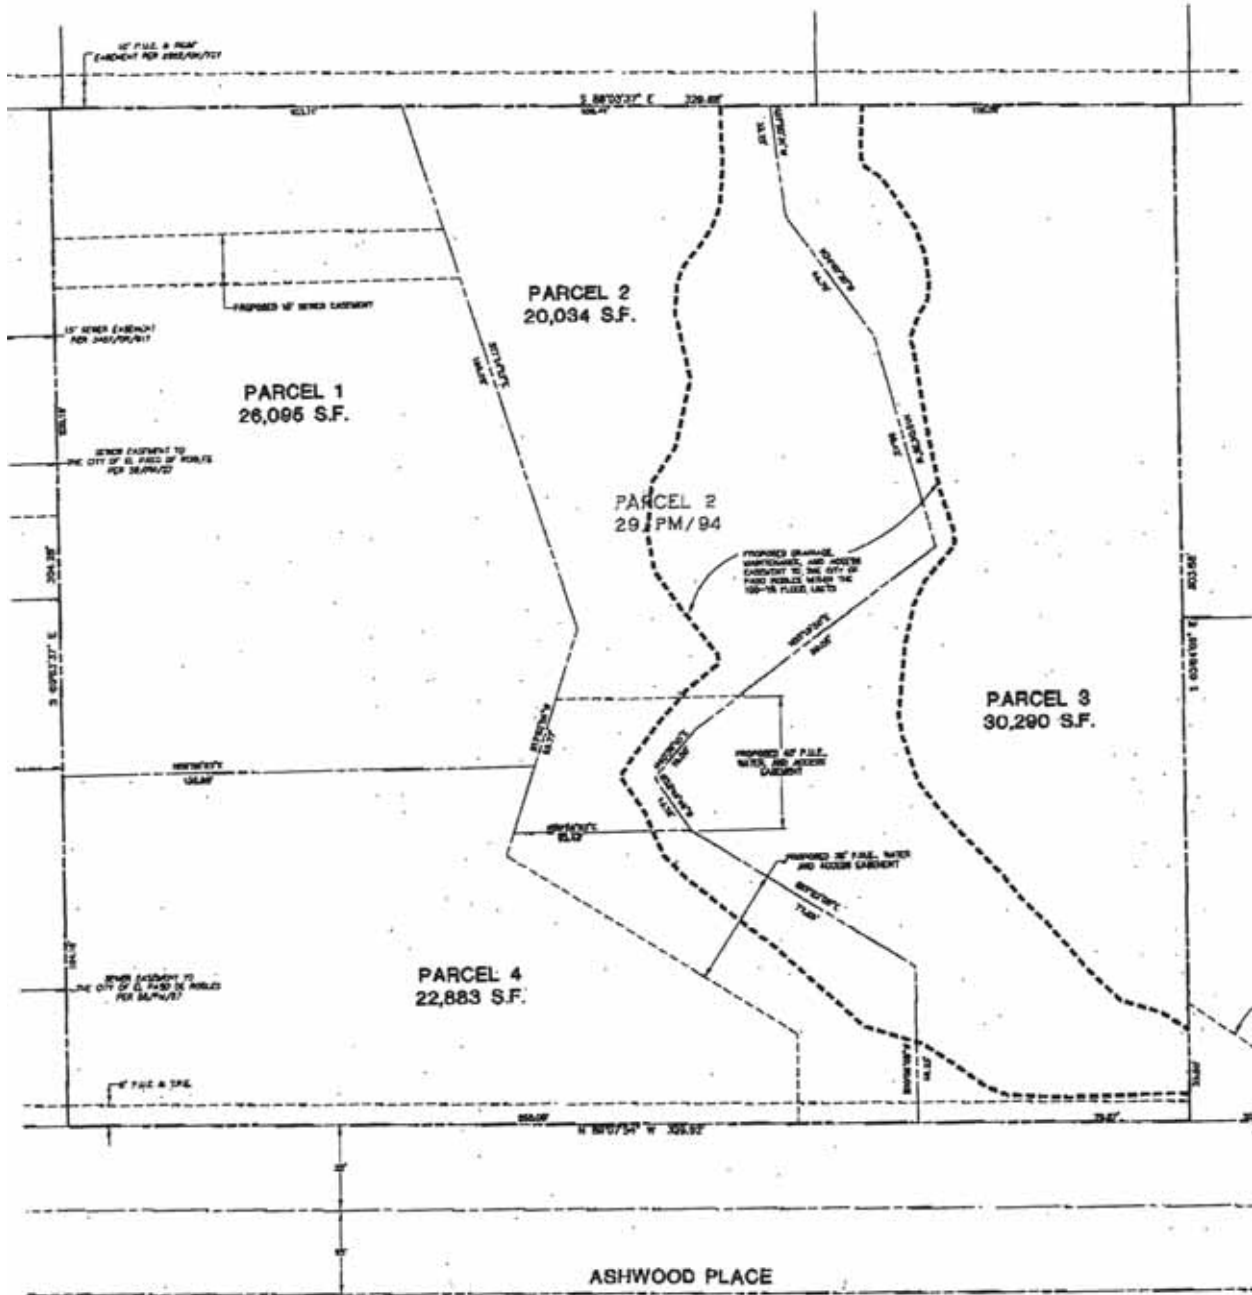

- Regular and periodic vegetation management within the overall drainage easement including but not limited to vegetation abatement, trimming, dethatching and vegetation replacement;
- Regular large debris removal and control within the creek to ensure proper water flow;
- Periodic desilting and/or small debris removal and control as needed to ensure proper water flow and minimize flooding;
- Vector control on an as needed basis to maintain the environmental and ecological balance within the creek easement;

The Office of Public Works, shall determine the need and scheduling of the services and activities to be performed within the creek easement that are necessary to ensure the functionality and integrity of the drainage improvements as well as available funds to provide such services.

A diagram that identifies the general location of the drainage easement (improvement area) relative to the subdivision of properties within the District is provided on the following page. A more detailed description of the improvement area easement maintained through the District is contained in the development plans for the PR03-0338 Subdivision which is on file in the Office of Public Works and by reference is made part of this Report. These plans and specifications may be amended or modified from time to time to reflect the ultimate development of properties within the District or necessary to accommodate the proper flow and integrity of the improvements. The net annual cost to provide and maintain the improvements determined to be of special benefit shall be allocated to each property in proportion to the special benefits received from those various improvements.

**Diagram of Drainage Easement:**

The diagram below provides a visual perspective of the creek easement (drainage improvement area) within the boundaries of the District:

### **III. METHOD OF APPORTIONMENT**

---

#### **A. GENERAL**

The 1982 Act permits the establishment of assessment districts by agencies for the purpose of providing for the maintenance, operation and servicing of drainage and flood control improvements as well as street lighting, streets, roads and highways. The 1982 Act further requires that the cost of these improvements be levied according to benefit rather than assessed value:

*“The amount of the assessment imposed on any parcel of property shall be related to the benefit to the parcel which will be derived from the provision of the service”.*

Furthermore:

*“The annual aggregate amount of the assessment shall not exceed the estimated annual cost of providing the service, except that the legislative body may, by resolution, determine that the estimated cost of work authorized ... is greater than can be conveniently raised from a single annual assessment and order that the estimated cost shall be raised by an assessment levied and collected in installments.... The revenue derived from the assessment shall not be used to pay the cost of any service other than the service for which the assessment was levied.*

The method of apportionment described in this Report for allocation of special benefit assessments utilizes commonly accepted engineering practices in compliance with the provisions of the 1982 Act and the California Constitution. The formulas used for calculating assessments reflects the composition of parcels within the District and the improvements and services provided, to fairly apportion the costs based on the special benefits to each parcel.

#### **B. BENEFIT ANALYSIS**

As previously noted, the drainage improvements associated with this District are an integral part of a more comprehensive drainage and ecological system in the area and as such, any unnecessary modifications or alterations to that system may negatively impact not only the property within the District but may also impact surrounding properties or the drainage system itself. While this may initially suggest that there is some measurable benefit to the surrounding properties or to the public at large from the District improvements, the cost of which could be considered a general benefit and not assessed to properties in the District, clearly any damages to other properties resulting from modifications of the existing drainage system or improper maintenance of those improvements

would ultimately be the financial liability of the property owner(s) responsible for causing such damages.

In addition, the proper maintenance of the improvements and appurtenant facilities allows individual parcels to be developed and used to their fullest extent by ensuring adequate drainage and proper control of excess water during periods of rain, which is essential to the use, preservation and protection of those properties. Conversely, the absence of adequate maintenance and servicing of these improvements would eventually have a negative impact on these particular properties as well. Clearly, providing for the proper control, maintenance and operation of the drainage improvements within this District must therefore be an integral part of the planned PR03-0338 Subdivision. Based on these findings, it is apparent that the improvements, services and activities for this District are a special benefit to only those properties within this District and ultimately the financial responsibility of those properties.

While it is clear that the drainage improvements to be provided by this District are entirely for the special benefit of the lots and parcels of land therein and ultimately the financial obligation of those properties, it has been determined by the City and supported by a court order, that the proper and adequate maintenance of the creek area (drainage improvements) shall not be relegated to the individual property owners, but shall be provided by the City utilizing assessment revenues from those properties. This is consistent with similar assessments levied annually on other properties in the area through the City's existing landscaping and lighting district.

### **C. ASSESSMENT METHODOLOGY**

Pursuant to the provisions of the 1982 Act and Article XIID Section 4 of the California Constitution, the costs associated with the improvements and services shall be fairly distributed among the parcels based upon benefit and each parcel's assessment may not exceed the reasonable cost of the proportional special benefit conferred to that parcel. The method of apportionment established for this District and described herein, reflects the proportional special benefit each property receives from the improvements and services based on the actual or proposed use of that parcel as compared to other properties within the District.

#### **Equivalent Benefit Units:**

The method of apportionment established for most maintenance assessment districts utilizes a weighted method of apportionment known as an Equivalent Benefit Unit (EBU). This method of apportioning special benefit and costs typically sets the single-family home or home-site as the basic unit of assessment. A single-family home is generally assigned one Equivalent Benefit Unit (EBU), with other land uses being assigned a weighted EBU based on an assessment formula that equates the property's special benefits to that of the single-family home utilizing specific property characteristic comparisons. This

proportional weighting may be based on several factors that may include, but are not limited to: the location of the property relative to the improvements, the type of development (land use), development-status (developed versus undeveloped), size of the property, densities or other property related factors including any development restrictions or limitations. Generally, for most districts the calculation of each parcel's proportional special benefit can be reasonably determined by applying one or more of these factors.

While the Equivalent Benefit Unit method of apportioning special benefit is most commonly used for districts that have a wide range of land use classifications (residential and non-residential use), the use of this methodology is still applicable for this District even though it is comprised of only existing or planned residential properties. Although each of the residential lots within the District will not be directly adjacent to the creek easement, the ability to develop or subdivide the existing property to two or more individual lots is contingent on providing for the drainage improvements. Therefore, it has been determined that each residential lot will have similar and equal benefits from the improvements and shall be assigned one Equivalent Benefit Unit (1.00 EBU) each; and until the existing property is subdivided, the existing parcel shall be assigned a weighted equivalent benefit unit of 4.00 EBU (representing the four planned residential lots).

The maximum assessment rate per Equivalent Benefit Unit identified in the Budget section of this Report is based on an estimate of the annual expenses at full build out of the properties within the District per the development plans for the PR03-0338 Subdivision (Four single-family residential properties — 4.00 EBU). However, if the development of properties within the District is modified resulting in a change in the total number of residential units, the maximum assessment rate for the District shall be modified accordingly based on the budget presented herein and the total benefit units applied to properties in the District at build-out. Such a change shall not constitute an increased assessment.

#### **Assessment Calculations:**

The total number of Equivalent Benefit Units (EBU's) for the District is the sum of all individual EBU's applied to parcels that receive special benefit from the improvements. As noted in the previous discussion the total Equivalent Benefit Units established for this District is 4.00 EBU based the development of the territory within the District (PR03-0338 Subdivision plans). An assessment amount per EBU (Assessment Rate) for the improvements is established by taking the total cost of the improvements and dividing that amount by the total number of EBU's of all parcels benefiting from the improvements.

**Total Balance to Levy / Total EBU = Levy per EBU**

This Rate is then applied back to each parcel's individual EBU to determine the parcel's proportionate benefit and assessment obligation for the improvements.

**Levy per EBU x Parcel EBU = Parcel Levy Amount**

**D. ASSESSMENT RANGE FORMULA**

While the budget and method of apportionment for this District establishes a maximum assessment for each lot/parcel within this District, these assessments reflect the proportional cost of providing the improvements in today's dollars. Clearly, these costs for service will inevitably be impacted by inflation in subsequent years. To ensure adequate funding is available in the future an assessment range formula for inflation is included as part of the maximum assessment rate to be presented to the property owner(s) of record for approval. The formula, as described herein provides for annual inflationary adjustment to the maximum assessments that may be imposed each year without requiring the extensive procedure and cost of balloting for normal operational cost increases. The annual inflationary formula (assessment range formula) described herein should provide for modest increases to the assessment revenues to meet anticipated cost increases in labor and materials that result from normal inflationary factors.

Commencing in the second fiscal year (fiscal year 2009/2010), and each fiscal year thereafter, the maximum assessments and assessment rate established in the previous fiscal year shall be adjusted by the percentage change increase in the Consumer Price Index reported by the San Francisco/Oakland Urban Wage Earners and Clerical Workers (CPI).

The maximum assessment that may be levied in a fiscal year is increased annually by the following formula:

$$\left. \begin{array}{l}
 \text{(Prior Year's Maximum Assessment x CPI)} \\
 \text{Plus} \\
 \text{Prior Year's Maximum Assessment}
 \end{array} \right] = \text{Current Year's New Maximum Assessment}$$

The CPI percentage change used each year shall be based on the annual percentage change for the preceding 12 months. For example, the annual inflation factor applied for fiscal year 2017/2018 is based on the annual percentage change from 2016 to 2017 utilizing the February CPI information.

Although the Annual Inflation Adjustment will increase the maximum assessments and assessment rate allowed each year, the actual amount to be assessed shall be based on the annual budget and may be less than the maximum assessments allowed.

## IV. DISTRICT BUDGETS

---

This section of the Report provides an estimate of the annual costs to be collected and deemed appropriate for the operation, maintenance and servicing of the improvements for the District.

BUDGET ITEMS	Budget FY 2017/2018
<b>DIRECT COSTS</b>	
Annual Creek Maintenance	\$214
Collection for Periodic Maintenance	54
<b>Sub-total Maintenance Costs</b>	<b>\$268</b>
<b>ADMINISTRATION COSTS</b>	
Preparation of Annual Report & Resos	\$53
City Overhead	27
<b>Total District Administration</b>	<b>\$80</b>
County Administration Fee	2
<b>Sub-total Administration Expenses</b>	<b>\$82</b>
<b>Total Direct and Admin. Costs</b>	<b>\$350</b>
<b>LEVY ADJUSTMENTS</b>	
Reserve Fund Collection/(Contribution)	\$0
Contributions from General Fund	0
<b>Sub-total Levy Adjustments</b>	<b>\$0</b>
<b>Balance to Levy</b>	<b>\$350.00</b>
<b>DISTRICT STATISTICS</b>	
Total Parcels	1
Total Assessable Parcels	1
Total Equivalent Benefit Units	4.00
<b>Proposed Levy per EBU</b>	<b>\$87.50</b>
Maximum Rate per EBU	\$1,810.25

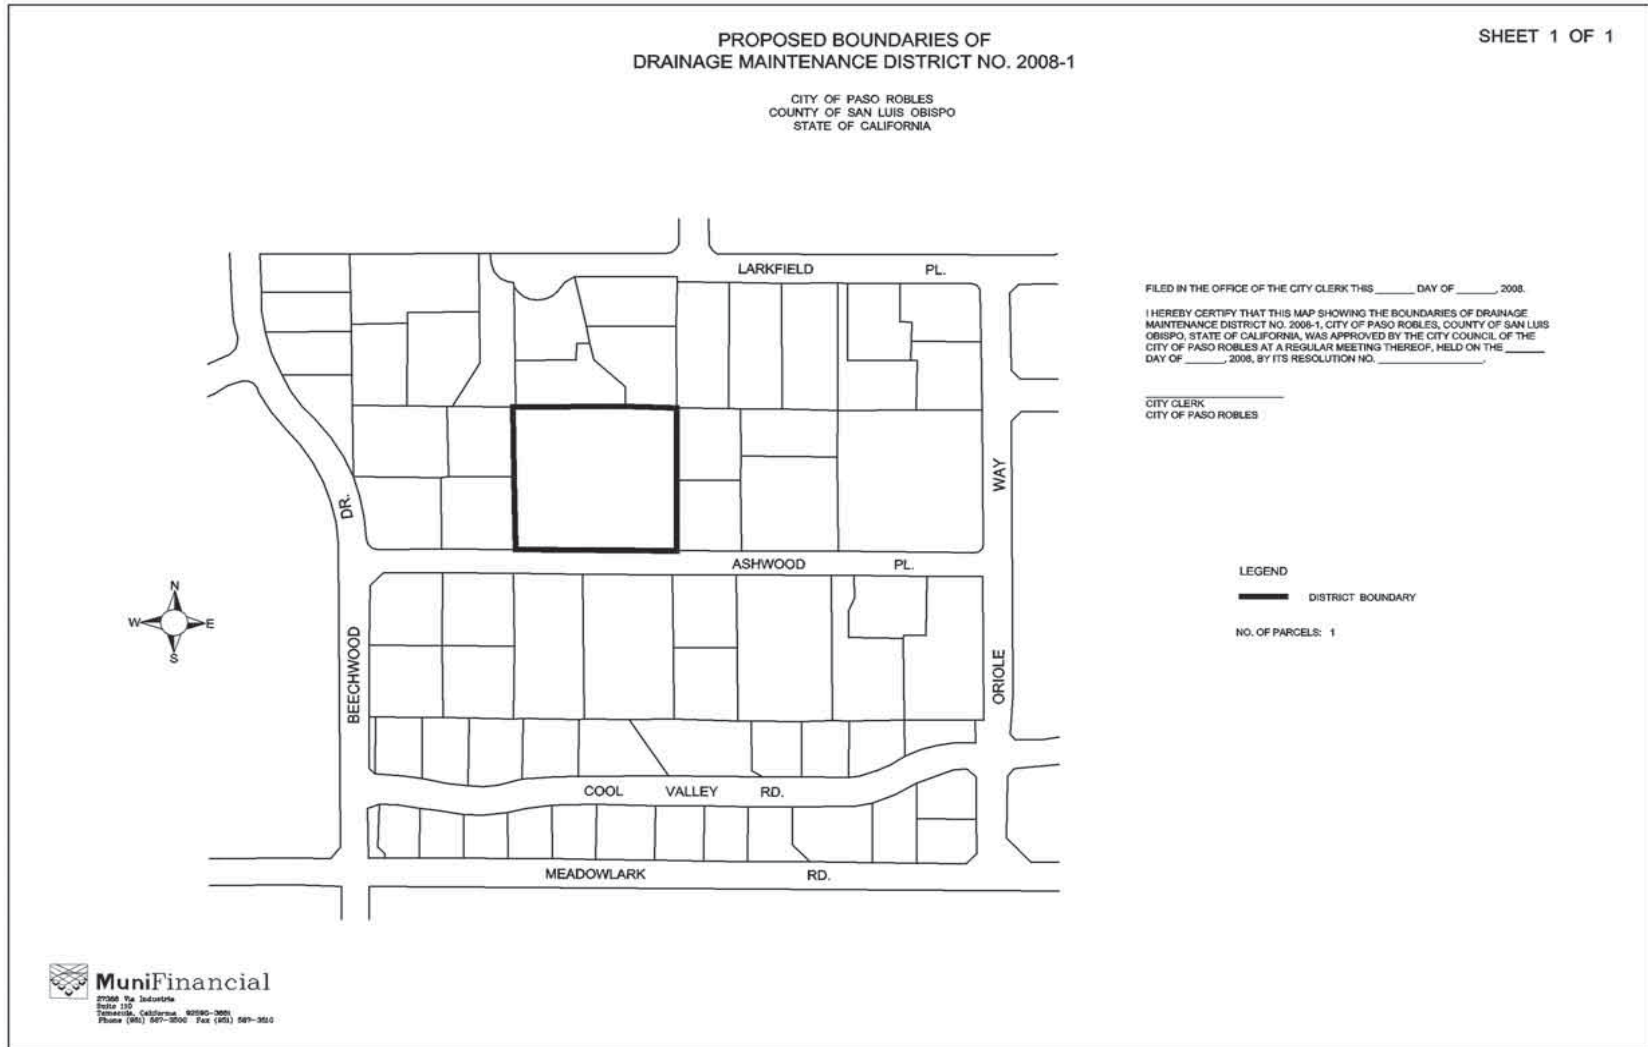

## ***V. DISTRICT DIAGRAMS***

---

The following District Diagram identifies the area of land within the District, as the same existed at the time this Report was prepared is based on the San Luis Obispo County Assessor's Maps and the San Luis Obispo County Assessor's information. The combination of this map and the Assessment Roll contained in this Report constitute the District Assessment Diagram. The maximum assessments and assessment range formula as described herein were presented to the property owner(s) of record in accordance with the provisions of the California Constitution.

**ASSESSMENT DIAGRAM FOR  
DRAINAGE MAINTENANCE DISTRICT NO. 2008-1  
CITY OF PASO ROBLES, COUNTY OF SAN LUIS OBISPO, STATE OF CALIFORNIA**

## **VI. ASSESSMENT ROLL**

---

Parcel identification for each lot or parcel within the District is based on the Assessment Diagram presented herein and is based on available parcel maps and property data from the San Luis Obispo County Assessor’s Office at the time the Engineer’s Report was prepared. A listing of the lots and parcels to be assessed within this District along with the assessment amounts is provided herein.

If any parcel submitted for collection is identified by the County Auditor-Controller to be an invalid parcel number for the fiscal year, a corrected parcel number and/or new parcel numbers will be identified and resubmitted to the County Auditor-Controller. The assessment amount to be levied and collected for the resubmitted parcel or parcels shall be based on the method of apportionment and assessment rates described in this Report as approved by the City Council. Therefore, if a single parcel is subdivided to multiple parcels, the assessment amount applied to each of the new parcels shall be recalculated and applied according to the approved method of apportionment and assessment rate rather than a proportionate share of the original assessment.

The following is a list of the parcels and assessment amounts for each of the parcels within the District as determined by the assessment rates and method of apportionment described herein:

<b>Assessor's Parcel Number</b>	<b>Land Use</b>	<b>EBU</b>	<b>Maximum Assessment</b>	<b>Assessment FY 2017/2018</b>
009-750-007	Planned Residential Subdivision	4.00	\$7,241.00	\$350.00
