DISCUSSION

16. Draft Airport Master Plan and Land Use Plan

R. Lata, Community Development Director

Consider recommendations of the Planning Commission, Airport Advisory Committee, and Council ad hoc committee regarding the Draft Airport Master Plan and Land Use Plan. (The Airport Master Plan anticipates future expansion of Airport facilities in response to demand and the availability of Federal funding, and there is no firm schedule for the described improvements. The Airport Land Use Plan is intended to protect the long-term viability of the Airport, addressing safety and land use compatibility. The Airport Land Use Plan is forwarded to the County Airport Land Use Commission for adoption and the Airport Master Plan, after approval by the County Airport Land Use Commission, will come back to the City Council for final adoption.)

Mayor Mecham opened the public hearing. Speaking from the public were Dan Lloyd (representing Weyrich Development & Woodruff Construction), Fred Strong, Dennis Buckley, Dale Gustin, Ralph Herman, James Jarzynski, Wayne Caruthers (President of the Citizens Airport Advisory Committee), Richard Morton (Member of the Citizens Airport Advisory Committee) and Matt Masia (Member of the Project Area Committee). The City Council took a 5-minute break at 10:20 PM.

17. Draft Outline of Seismic Safety Ordinance Update

R. Lata, Community Development Director

Consider first steps toward updating the City's Seismic Safety Ordinance. (Current code requirements are based on 1987 codes and the current City seismic safety ordinance delays retrofit of most structures to 2018. In light of the safety hazard as demonstrated by the December 22, 2003, San Simeon earthquake, it is suggested that Council consider adoption of a retrofit standard that is based on the most recent adopted codes and has a maximum of two years for all unreinforced masonry buildings to be retrofitted. A proposal is pending to consider offering Community Development Block Grant funds for preparation of retrofit plans.)

Mayor Mecham opened the public hearing. Speaking from the public were William Frost and Roger Lyon. There were no further comments from the public, either written or oral, and the public discussion was closed.

Councilmember Nemeth, seconded by Councilmember Finigan, moved to authorize staff to circulate the Outline and Draft Code Amendment for public review and comment, including mailing copies to the owners of unreinforced masonry buildings; and set a 30 day period for public review. During that 30 day period, a public workshop would be scheduled to discuss the Draft Code Amendment. Council consideration of a Code Amendment would be tentatively scheduled for May 18, 2004. Staff was directed to investigate whether the City could advance General Fund monies to assist property owners in preparing seismic retrofit plans, and later repaid from fall 2004 Community Development Block Grant funds.

Motion passed by the following unanimous roll call vote:

- AYES: Finigan, Heggarty, Nemeth, Picanco and Mecham
- NOES: None
- ABSTAIN: None

Mayor Mecham opened the public hearing. Speaking from the public was Editha Spencer. There were no further comments from the public, either written or oral, and the public discussion was closed.

Councilmember Nemeth, seconded by Councilmember Heggarty, moved that:

- (1) The current (1992) adopted Main Street Design Guidelines, combined with the forthcoming design standards for mixed-use development, should be adequate tools to address design proposals for reconstruction of demolished buildings in the downtown commercial area.
- (2) All parking and circulation related recommendations should be referred to the Council's ad hoc Committee on implementing the adopted Downtown Parking and Circulation Action Plan.

- 3) The balance of the input / recommendations / suggestions is to be referred to the Planning Commission with a request that the Commission review, comment and prepare a report on options.
- (4) Authorize the Mayor to send letters to Tom Martin of the Paso Robles Inn thanking him for donating the use of the ballroom for the two workshops and to also send letters of appreciation to the San Luis Obispo County Council of Governments and Cal Poly for their support and participation in the two workshops.

NOES: None
ABSTAIN: None

20. Request to Remove Three Oak Trees – Black Ranch (Masia)

R. Lata, Community Development Director

Consider approving the removal of three oak trees from the Black Ranch property site. (Property is located on north side of Hwy. 46 East, opposite the Hunter Ranch Golf Course, and applicant is Matt Masia. In February, the Planning Commission recommended that the project not be redesigned around the trees, as this would likely result in impacts to oak trees that are in better condition. There are in excess of 1000 additional trees on the property.)

Mayor Mecham opened the public hearing. Speaking from the public were John Knight, Steven Alvarez (certified arborist), and Mike Menath. There were no further comments from the public, either written or oral, and the public discussion was closed.

Councilmember Nemeth, seconded by Councilmember Heggarty, moved to adopt Resolution No. 04-57 approving the request to remove the three (3) oak trees on the Black Ranch property, based on the site having over 1000 trees that would be preserved, and require a replacement ratio of 24-inches of Blue Oak trees to be planted in a location that is appropriate for the species of tree as determined by a horticulture professional (e.g., Blue Oaks should be planted in arid environment). Removal of the subject trees will be authorized in conjunction with a building permit for structures approved with PD 01-025.

Motion passed by the following unanimous roll call vote:

AYES: Finigan, Heggarty, Nemeth, Picanco and Mecham
NOES: None
ABSTAIN: None
ABSENT: None

21. Request for Water Well Use

R. Lata, Community Development Director

Consider authorizing the use of a private well for irrigation of a future golf course at Black Ranch Resort. (In February 2004, the Planning Commission approved Planned Development PD 01-025, which included a Site Specific Condition that golf course irrigation would be obtained by connection to the City water system unless Council specifically approved the use of private sources of water.)

Mayor Mecham opened the public hearing. Speaking from the public were John Knight and Mike Menath. There were no further comments from the public, either written or oral, and the public discussion was closed.

Councilmember Heggarty, seconded by Councilmember Picanco, moved to adopt Resolution No. 04-58 approving the use of existing or new private wells by the Black Ranch Resort to irrigate future golf courses with the provision that the Black Ranch Resort, or successors in interest, connect to City-provided reclaimed water at such time said reclaimed water is available.

Motion passed by the following unanimous roll call vote:

AYES: Finigan, Heggarty, Nemeth, Picanco and Mecham
NOES: None
ABSTAIN: None
ABSENT: None

Councilmember Heggarty stepped down from the dais and abstained from voting on Item No. 22 due to a possible conflict of interest, his home being in the OBAD development.

22. City Standard for Orchard Bungalow Streets

R. Lata, Community Development Director

Consider a standard for the development of new streets in the Orchard Bungalow Tract (a.k.a., El Dorado Estates). (In order to maintain the character of the Orchard Bungalow neighborhood, it is reasonable to establish a street standard that is consistent with existing right of way constraints and improvement patterns. A subdivision application on file cannot proceed without Council adoption of a street standard.)

Mayor Mecham opened the public hearing. There were no comments from the public, either written or oral, and the public discussion was closed.

Councilmember Nemeth seconded by Mayor Mecham, moved to adopt Resolution No. 04-59 establishing a standard for Orchard Bungalow streets as shown in Exhibit A of the staff report.

R. Lata, Community Development Director

Consider a standard for the development of one-way residential neighborhood streets. (An application for a subdivision of the Hanson property located east of South River Road, between the Serenade subdivision and the first phases of Deer Park. The proposed subdivision layout includes a public one-way street designed in a circular alignment. The City does not currently have a standard for a one-way street.)

Mayor Mecham opened the public hearing. There were no comments from the public, either written or oral, and the public discussion was closed.

Councilmember Picanco, seconded by Councilmember Finigan, moved to continue Item No. 23 to a future meeting.

Motion passed by unanimous voice vote.

24. Mineral Hot Spring Mitigation - California Energy Commission Grant Applications

M. Williamson, Interim Public Works Director

Consider filing California Energy Commission Geothermal Grant Applications to partially fund examination of various spring mitigation measures. (The City is expanding its efforts to address potential alternative beneficial uses and/or disposal and diversion options for the geothermal mineral water. These grants would provide a funding source for this critical endeavor.)

Mayor Mecham opened the public hearing. There were no comments from the public, either written or oral, and the public discussion was closed.

Councilmember Picanco, seconded by Councilmember Finigan, moved to:

- (1) Adopt Resolution No. 04-60 authorizing the City Manager to appropriate up to \$14,880, in addition to in-kind matching funds of \$33,404, for a Geothermal Resource Assessment grant application with the California Energy Commission;

Motion passed by the following unanimous roll call vote:

AYES: Finigan, Heggarty, Nemeth, Picanco and Mecham
NOES: None
ABSTAIN: None
ABSENT: None

25. 13th Street Bridge Widening – Communications Program

M. Williamson, Interim Public Works Director

Consider a communications program for the 13th Street Bridge Widening Project. (The approved design concept for this project calls for widening the bridge to accommodate four travel lanes [two in each direction], two turn lanes, two bike lanes, and sidewalks on both sides. Beyond the bridge limits, adjacent streets [North and South River Roads, Creston Road and Union Road] will also be widened to maximize flow at the intersection and relieve traffic congestion. In February 2004, Council adopted the final budget for the project, but requested further review of the proposed project communications program.)

Mayor Mecham opened the public hearing. There were no comments from the public, either written or oral, and the public discussion was closed.

Councilmember Finigan, seconded by Councilmember Heggarty, moved to (1) approve a Communications Program to be administered by Barnett Cox Associates for \$97,600; (2) dissolve the ad hoc committee formed on February 3, 2004; (3) authorize the City Manager to enter a contract for such services; and (4) to incorporate the Paso Robles Bear Cat into the official logo for this project.
