

RESOLUTION NO. 09-055

A RESOLUTION OF
THE CITY COUNCIL OF THE CITY OF EL PASO DE ROBLES
PROVIDING DIRECTION AND PROCESSING PRIORITIES
FOR VARIOUS SPECIFIC PLANNING EFFORTS

WHEREAS, the City is processing or has received applications for four specific plans including Uptown/Town Centre, Chandler Ranch, Olsen Ranch/Beechwood, and River Oaks II; and

WHEREAS, the City's current General Plan and Economic Strategy call for master planning the Uptown/Town Centre, Chandler Ranch, and Olsen Ranch/Beechwood areas and provides density targets that are within the City's buildout population planning threshold of 44,000 residents; and

WHEREAS, the City has sized its physical and human resources to serve a target population of 44,000 persons; and

WHEREAS, the four proposed specific plans have the potential to increase the City's buildout population to 52,000 persons, which would exceed the City's ability to adequately serve its residents; and

WHEREAS, the Council understands the need to focus staff's efforts on those specific plans which will meet the City's General Plan and Economic Strategy objectives in order to have new residential capacity ready to be built in a timely manner.

NOW, THEREFORE, BE IT RESOLVED, DETERMINED AND ORDERED, by the City Council of the City of El Paso de Robles as follows:

1. The City will focus its efforts and resources to process only those specific plans called for in the current General Plan and Economic Strategy, namely: Uptown/Town Centre, Chandler Ranch, and Olsen Ranch/Beechwood Specific Plans. Any additional specific plans or amendments to existing specific plans that would increase the existing population threshold may not be processed without an amendment to, at a minimum, the Land Use element of the General Plan.
2. The development within these three specific plan areas will be limited to the densities set forth in the current General Plan unless and until the City, in its discretion, determines to comprehensively amend the Land Use Element of the General Plan that would allow for increased densities and an increased population threshold.
3. Because the environmental review of the Chandler Ranch and Olsen Ranch/Beechwood Specific Plans cannot be completed until the updated Circulation Element of the General Plan is completed, the completion of the Circulation Element shall remain a top priority for City staff. The processing of the Uptown/Town Centre Specific Plan is not dependent upon an updated Circulation Element being completed as it addresses infill development within an area with a completed street network, and any circulation or traffic issues shall be addressed in the environmental review of that specific plan.
4. Specific Plans shall have a priority processing order as follows:
 - a. Uptown/Town Centre
 - b. Chandler Ranch
 - c. Olsen Ranch/Beechwood
5. City staff shall provide the Council with quarterly status reports regarding the processing of all specific plans. The Council reserves the right to change processing priorities among the Uptown, Chandler Ranch and Beechwood-Olsen specific plans should there be extended

delays caused by property owners. Such delays may include, but are not limited to, the failure to make timely or adequate deposits to cover City costs in processing the specific plan or provide timely information.

6. The property owners within the Chandler Ranch and Olsen Ranch/ Beechwood Specific Plan areas shall be responsible for paying for all costs related to the processing of their respective specific plan; the costs of the Uptown/Town Centre Specific Plan are being borne primarily by the Redevelopment Agency of the City. Such costs shall include, but are not limited to, all third-party consultant and City staff time costs incurred from the effective date of this resolution. Property owners or their representatives or agents for each specific plan shall be required to enter into reimbursement agreements which will require them to timely make and maintain deposits with the City adequate to cover all City costs associated with their respective specific plans.
7. Any proposed applicant-driven new specific plan or specific plan amendment shall be subject to preliminary community input and review prior to its acceptance for processing as follows:
 - a. Draft specific plans or specific plan amendments shall first be submitted to staff for review and feedback to applicant
 - b. Community workshop(s) will be held before the Planning Commission and City Council before a proposed specific plan or specific plan amendment is accepted for processing
 - c. Environmental review of a new specific plan or specific plan amendment will begin only after community input and City Council direction on the proposed specific plan or specific plan amendment.
 - d. The City Council retains the discretion as to whether to accept a new specific plan or specific plan amendment. Any new specific plan or specific plan amendment that is accepted for processing shall be subject to all normal environmental review, public comment and hearing process.
8. Nothing in this resolution shall affect the rights of other property owners in the City to submit a new specific plan or specific plan amendment to the City for processing provided, however, that the processing of any such specific plan or specific plan amendment shall be subject to the priorities set forth above and consistent with population planning thresholds contained in the current General Plan, and may be limited by the resources available to the City. The property owners included within an area covered by a new specific plan or specific plan amendment shall be responsible for paying for all costs related to the processing of such new specific plan area or specific plan amendment.

PASSED AND ADOPTED THIS 5th day of May, 2009 by the following Roll Call Vote:

AYES: Gilman, Hamon, Steinbeck, Strong and Picanco
