Planning Commission approval of a development project is one step in the process of meeting applicable legal requirements. In addition to receiving Planning Commission approvals, all development plans must comply with applicable Zoning and Building Codes. Applicants are encouraged to consult with a design professional to confirm what provisions of the Uniform Building Codes and, in particular, requirements for handicapped access will apply to your project and the design and/or financial implications of meeting these legal requirements.

All items on the Planning Commission Agenda are scheduled for action unless explicitly otherwise stated. Planning Commission Action on General Plan Amendments, Rezones, Street and Public Easement Abandonments, Street Name Changes, Code Amendments and any legislative related action is a recommendation to the City Council; the Council will hold a separate public hearing prior to taking final action. All Other Planning Commission action is final unless an appeal application, including the required fee, is filed with the Community Development Department within 15 calendar days of the date of the action.
