Director's Comments: none

Regular Meeting Adjourned at: 8:20 PM

DEVELOPMENT REVIEW COMMITTEE MINUTES

3:30 PM Monday – January 22, 2018

Meeting Location: The Development Review Committee will meet at the Large Conference Room on the second floor of City Hall, at 1000 Spring Street, Paso Robles, California.

DRC Members Present: Shannon Agredano, John Donaldson

Staff Present: Darren Nash, Susan DeCarli

Applicants and others present: David Cooke, Roberta Jorgensen and Sheree Davis

File #:

Application: Bicycle and Pedestrian Master Plan

Location: Citywide

Applicant: City of Paso Robles

Discussion: The DRC met on this item to discuss policy related concerns discussed by the Planning Commission with the plan. The DRC had concerns specifically with the scope and depth of goals, policies and actions related to the Pedestrian component of the plan. They felt it did not have enough emphasis on pedestrian issues, such as the importance of walking, physical barriers and connections needed, and focused too much on bike related facilities.

The DRC also has some organizational suggestions. Given the scope of changes the DRC wanted to suggest be incorporated on pedestrian policies, Commissioner Jorgensen offered to spearhead review the plan in detail and provide suggested pedestrian language and ideas on plan organization. She indicated she would work with staff to support those areas of the plan. Staff appreciated the offer to help, and will reschedule review by the DRC when edit changes are complete for their review before rescheduling it for Planning Commission consideration.

File #: PD 10-001

Application: Oak Park Phase 4

Location: 34th and Park Streets

Applicant: PR Housing Authority

Discussion: David Cooke gave an overview of the Oak Park project and status on the demo and construction of Phase 3. He then discussed the requested changes to Phase 4, which include adding a new building type that would include twelve 1-bedroom units (Bldg. Type F). There has been a high demand for 1-bedroom units in the previous phases and the new building would help accommodate that need. Alterations to the Phase 4 site plan are necessary to provide for the new Bldg. Type F. Also briefly discussed was the request to remove 3 additional oak trees for a total of 7 for Phase 4.

Action: No action was taken; the Commission will be reviewing this item at their meeting on January 23rd.
