

Planning Commission Agenda
December 22, 2015
Errata Sheet

Public Hearing Item #1:

The agenda was inadvertently published with Attachment 1 – League of California Cities Hand-outs: *"Frequently Asked Questions"*, and the *"Medical Marijuana Regulation and Safety Act – What Cities Need to Know About the New Law and Cultivation"*, with only the odd numbered pages included.

The full text of the hand-outs (doubled sided), is attached to this errata sheet.

[See full agenda item #1](#)

Frequently Asked Questions (FAQs)

Medical Marijuana Regulation and Safety Act¹

Topic #1: Cultivation

*The State will be the sole licensing authority for the commercial cultivation of medical marijuana unless a city adopts land use regulations or ordinances regulating or prohibiting the cultivation of marijuana -- either expressly or otherwise under the principles of permissive zoning -- prior to **March 1, 2016.***²

1. **Question:** If a city wants to enact a total ban on cultivation, can the ban include cultivation for personal use?

Answer: Yes. Under *Live Oak*³, a city can ban all marijuana cultivation -- even cultivation of small amounts by qualified patients. The *Live Oak* ban had no exceptions for personal use by a qualified patient. The new legislation does not change the law in this regard.

2. **Question:** Must a city's ordinance prohibiting cultivation make an exception for personal medical marijuana cultivation of up to 6 mature or 12 immature plants?⁴

Answer: No. In the *Live Oak* case, the California Court of Appeal upheld the city's total ban on all marijuana cultivation. That authority is preserved under the new legislation.

3. **Question:** Is a person who cultivates marijuana for his or her personal medical use required to get a cultivation license from the State?

¹ AB 266 (Bonta, Cooley, Jones-Sawyer, Lack, Wood); AB 243 (Wood); and SB 643 (McGuire). Effective 1/1/2016. Please consult your City Attorney before taking action to implement the MMRSA. The answers to these FAQs may be different in your city based upon your municipal code, regulations, and policies. The answers do not constitute legal advice from the League of California Cities®.

² Health & Safety 11362.777(c).

³ *Maral v. City of Live Oak* (2013) 221 Cal.App.4th 975.

⁴ Health & Safety Code 11362.77 allows a qualified patient to cultivate 6 mature or 12 immature plants without criminal liability.

Answer: No, if the area used for cultivation does not exceed 100 square feet, or 500 square feet for a primary caregiver with no more than five patients.⁵ If the areas exceed these limits, then a State license is required. The exemption from the State licensing requirements does not prevent a city from regulating or banning cultivation by persons exempt from State licensing requirements.⁶

4. **Question:** Can a city prevent the State from becoming the sole licensing authority for cultivation by adopting an ordinance that permits the cultivation of six plants per residence prior to March 1, 2016?

Answer: Yes. The State becomes the sole licensing authority for cultivation as of March 1, 2016 if a city does not have a land use regulation or ordinance “regulating or prohibiting the cultivation of marijuana.” An ordinance permitting cultivation under certain specific conditions (not more than six plants per residence) is an ordinance “regulating” marijuana cultivation and therefore qualifies. However, in order to be completely clear, the City Attorney may wish to determine whether it is advisable to prohibit all other types of cultivation as part of the ordinance.

5. **Question:** Must the cultivation prohibition be adopted as part of a city’s zoning code? Could it be adopted instead under the city’s business licenses and regulations?

Answer: It’s not possible to answer “yes” or “no.” AB 243 requires a “land use regulation or ordinance.” Whether the phrase “land use” requires a zoning ordinance is a question for the city attorney to answer based on the particular language of the city’s municipal code.

6. **Question:** Can a city ban large growers but still allow qualified patients to cultivate a small amount of medical marijuana in their private residences?

Answer: Yes. There’s nothing in the legislation that requires a total ban. The most important consideration is to clearly identify cultivation that is prohibited and cultivation that is allowed and to do so before March 1, 2016.

7. **Question:** Is a temporary land use moratorium (under Government Code section 65858) on medical marijuana cultivation that is effective in a city by March 1, 2016 sufficient to prevent the State from having sole licensing authority under the new law for medical marijuana cultivation applicants in that city?

⁵ Business & Professions Code 19319; Health & Safety 11362.777(g).

⁶ Health & Safety Code 11362.777(g).

Answer: Probably not. The new law requires a land use regulation or ordinance that prohibits or regulates cultivation. Because a moratorium adopted under Government Code 65858 would only temporarily prohibit cultivation, it may not qualify as a land use ordinance that “prohibits” cultivation.

8. **Question:** Can a local medical marijuana cultivation ordinance be enacted on an urgency basis in order to comply with the March 1, 2016 deadline in the new legislation?

Answer: Yes, with urgency findings relating to the statutory deadline.

Topic #2: Delivery

Deliveries of medical marijuana can only be made by a State-licensed dispensary in a city that does not explicitly prohibit deliveries by local ordinance. If a city wants to prevent deliveries within its jurisdiction, it must adopt an ordinance expressly prohibiting them.⁷

9. **Question:** Is there a deadline for adopting an ordinance explicitly prohibiting deliveries?

Answer: There is no deadline in the new law. However, best practice would be to adopt the ordinance prior to the date the State begins issuing licenses allowing deliveries so as to reduce the risk of confusion and to avoid the process of requesting the State to terminate the operations of a dispensary making deliveries within the city. The legislation does not specify a deadline for the State to begin issuing any category of license. The State is generally expected to begin issuing licenses on January 1, 2018, but it could begin sooner.

10. **Question:** What are the quantities that delivery services will be authorized to transport?

Answer: The amount that local delivery services will be authorized to carry will be determined by the Bureau of Medical Marijuana Regulation within the Department of Consumer Affairs. The determination will be based on security considerations, cash value, and other factors. The amount will be a statewide threshold, authorized for delivery primarily to patients, primary caregivers, and testing labs. Larger amounts will not be considered “delivery” but rather “transport” triggering heightened security requirements while the product is being moved.

⁷ Health & Safety 19340.

Topic 3: Dispensaries and Retail Operations

11. **Question:** Will cities still be able to ban dispensaries?

Answer: Yes. Cities currently have the ability to enact bans on dispensaries and other marijuana retail operations. The new law will not change that, and in fact requires a local permit and a State license before a marijuana business can begin operations within a specific jurisdiction. Cities will retain the discretion to deny permits or licenses to marijuana dispensaries.

12. **Question:** Can a city allow dispensaries and prohibit delivery services?

Answer: Yes. But cities should be aware that if they wish to prohibit delivery services, an ordinance prohibiting delivery services is required.

Topic #4: Other Questions

13. **Question:** Does the new legislation make any distinction between “not-for-profit” and “for profit” medical marijuana businesses?

Answer: No. There is no distinction in the new legislation between medical marijuana businesses that operate “for profit” and those that operate on a “not-for-profit” basis. The new law does not mandate that dispensaries or other businesses operate under either business model.

14. **Question:** Are marijuana edibles covered under the new legislation? Is there a separate designation for them under the new law, with additional State regulatory requirements?

Answer: The new legislation directs the State Department of Public Health (DPH) to develop standards for the production and labeling of all edible medical cannabis products (Business & Professions Code section 19332(c)). A license is required from DPH to “manufacture” edibles. The DPH standards are “minimum standards.” A city may adopt additional stricter standards, requirements and regulations regarding “edibles” (Business & Professions Code section 19316(a)). Cities also retain their ability to license and regulate edible sales or distribution.

15. **Question:** The new law says: "upon approval of the state, cities may enforce state law". If an existing medical marijuana dispensary does not have both licenses (State and city), then must a city wait for the State to approve shutting the dispensary down

before a city can cite the dispensary or otherwise seek to shut it down under the city's ordinances and regulations?

Answer: No. A city may enforce its own ordinances and regulations against the dispensary since a medical marijuana dispensary cannot operate lawfully unless it complies with all local ordinances and regulations.

16. **Question:** Does a P.O. Box qualify as a medical marijuana business location? Is that considered a "use" in a city?

Answer: The answer to this question depends upon a city's municipal code. The State law prohibits a person from engaging in commercial cannabis activity without possessing both a State license and a local permit, license or other authorization. A State licensee may not commence activity under the authority of a State license until the applicant has complied with all requirements of the applicable local ordinance (Business & Professions Code section 19320). A city's municipal code will determine whether a "use" includes a post office box.

17. **Question:** Does the new law address extraction of THC, butane or other substances from marijuana?

Answer: The new law does not specifically address the issue of extraction at all – other than to acknowledge very generally that extraction falls within the definition of manufacturing, and that medical marijuana or a product derived from it may contain extracts.

18. **Question:** Since patients and primary caregivers are exempt from the licensing requirement under specified circumstances, how will that work if they are also owners of a dispensary or cultivation site?

Answer: A primary caregiver or qualified patient who seeks to operate a dispensary or cultivation site is subject to the same State licensing requirements and local permitting requirements as any other person.

19. **Question:** What types of medical marijuana businesses require a State license?

Answer: The new law creates six State licensing categories: Dispensary, Distributor, Transport, Cultivation, Manufacturing, and Special Dispensary Status for licensees who have a maximum of three dispensaries. Any person or entity wishing to operate under a State license must also comply with all local requirements.

20. **Question:** Several initiative measures to legalize recreational marijuana have been filed with the Attorney General in advance of the November 2016 ballot. Should a city be considering prohibiting or regulating recreational marijuana at this time?

Answer: No. The new law does not address recreational use of marijuana. It adds a licensing structure for businesses that wish to serve those qualified patients and primary caregivers who use medical marijuana for their personal use. The League of California Cities is following the various recreational marijuana initiative measures that have been filed with the Attorney General. There is no need for a city to take any action at this time. If a city is interested in following these measures, more information can be found at: <https://www.oag.ca.gov/initiatives/active-measures>.

21. **Question:** Does the new law protect the privacy of patients and primary caregivers?

Answer: Yes. Patient and primary caregiver information is confidential and not subject to disclosure under the California Public Records Act, except as necessary for employees of the State or any city to perform official duties.

22. **Question:** Is there a provision in the new law giving business operators priority for State licensing if they can show that they are in compliance with local ordinances? If so, what is the purpose of this provision?

Answer: Yes. The State licensing authority is required to prioritize any facility or entity that can demonstrate to the authority's satisfaction that it was in operation and in good standing with the local jurisdiction by January 1, 2016. This provision is intended as an incentive for business operators to be in compliance with local ordinances, to ease any difficulties local governments may have in launching their local regulatory structures, and to help expedite the initial phase of issuing state licenses.

23. **Question:** Does the new law address food trucks that sell marijuana edibles?

Answer: No. The operation of food trucks are within the control and regulation of cities and county health departments.

PLEASE NOTE: This document will be updated periodically, as needed, and will remain available at www.cacities.org. As noted above, each city should consult with its city attorney on all of these issues. The answers to these FAQs do not constitute legal advice from the League of California Cities®.

MEDICAL MARIJUANA REGULATION AND SAFETY ACT¹

What Cities Need to Know About the New Law and Cultivation

OVERVIEW

Here's what you need to know:

- **Local prohibition or regulation:** Cities may prohibit or regulate medical marijuana businesses within their jurisdictions. **Local authority remains intact under the new law.**
- **State license required:** All medical marijuana businesses – dispensary sales, delivery service, cultivation, transport or distribution – must have a State license².
- **State license not enough:** A medical marijuana business in any city may only operate if it has permission from the State and permission from the city (“dual licensing”).
- **Enforcement:** Revocation of local permission to operate means a medical marijuana business must terminate operation because the new law requires dual licensing. Upon approval of the State, a city may enforce State law.
- **State law penalties for unlicensed activity:** There are civil penalties and criminal penalties for operating without a State license.

CULTIVATION

Here's what you need to know:

If your city does **not** have a land use ordinance in place regulating or prohibiting the cultivation of marijuana, *either expressly or otherwise under the principles of permissive zoning*, or chooses not to administer a conditional permit program, then commencing **March 1, 2016**, the State Department of Food and Agriculture will be the sole licensing authority for medical marijuana cultivation applicants.

¹ AB 266 (Bonta, Cooley, Jones-Sawyer, Lack, Wood); AB 243 (Wood); and SB 643 (McGuire). Effective 1/1/2016.

² The Department of Consumer Affairs estimates it will begin issuing State licenses in January 2018. The Department of Food and Agriculture and the Department of Public Health also have licensing authority under the new law. Businesses operating in compliance with local ordinances will get priority in the State licensing application process.

October 27, 2015

CULTIVATION

Here's what you need to do:

Determine if your city fits within City #1 or City #2 as described below:

- **City #1:** Municipal Code that does not expressly prohibit nor expressly regulate cultivation of medical marijuana and is not a “permissive zoning” code. **Need to take action.**

ACTION REQUIRED: Adopt a land use ordinance regulating or prohibiting the cultivation of medical marijuana. The ordinance must be effective by February 28, 2016. The ordinance may be adopted as an “urgency ordinance,” or second reading must occur on or before January 29, 2016.

- **City #2:** Municipal Code that is a “permissive zoning” code and does not enumerate cultivation of medical marijuana as a permitted or conditional use. **Need to take action.**

ACTION REQUIRED: (1) Check and confirm that your city's zoning code is adopted and implemented under the principles of permissive zoning. If not, take action recommended for City #1. (2) If confirmed, adopt a resolution that includes the following provisions:

- States that Health & Safety Code section 11362.777(b)(3) provides that the Department of Food and Agriculture may not issue a State license to cultivate medical marijuana within a city that prohibits cultivation under principles of permissive zoning;
- Re-affirms and confirms that the Zoning Code is adopted and operates under the principles of permissive zoning;
- States this means that cultivation of marijuana is not allowed within City #2 because it is not expressly permitted; and
- Therefore, the State is not allowed to issue a license for the cultivation of medical marijuana within City #2.

Be sure to consult with your city attorney before taking any of the actions recommended in this document.
