3. Process for creating new street maintenance and repair schedule.

Using the results of the Pavement Condition Index update, Council directed staff to:

2. Use the system's Critical Point Decision-Making process to identify the projects that would be completed for the 10-year \$12 million/year scenario; and
3. Prepare a 7-year Plan (2019 to 2025) to spend the remainder of the Supplemental Sales Tax, and including Gas Tax funds and SB1 funds.
